PAYNE MAY CO.

POSTOFF(E FRAUDS MAKE good loking and I believe loved TROUBLE BETWEEN HIM AND WYNNE.

Wysne Pushed the Investigation of Frauds, Aiding Newspapers in S curing Information-And Payne Didn't Like the Publicity.

Washington, June 3 .- Strained relations exist between Postmaster G-ueral Payne and First Assistant nancial loss of Council Grove caus-Wyone, and as a result, one of ed by the flood will amount to \$1,them will probably have to go, 000,000. when the matter is laid before the president.

The diff-rence between Payne and Wynne resulted, first, from Payne's criticism of the first assistant, because the latter was too free ia giving out reports of abuses and irregularities to the press, while the Payne believes that Wynne has also encouraged some newspaper attacks upon him. Wynne feels that Payne has not stood by him as he should, and is trying to prevent him from getting credit for the investigations as far as they have go a. When the mater is brought to the notice of the president, Wynne's neshion will be quite strong.

Riverside, Cal., June 2 .- Fischer, the young degenerate who killed his wife here in April by choking her into insensibility, chloroforming her and then pouring gasoline over her clothes and touching off a match, thereby hoping to destroy all trace of the crime, has made a full confession at San Quentin, from which place he is sentenced to be hanged July 14. He made the awful confeesion last night to Mrs. Coburn, wife of Sheriff C. M. Coburn. Fisch-

"I sprang upon Mrs. Fisches just as we had returned from a walk through the city and the ci through the city, and three minutes after we entered our rooms the deed was done and she was insensible on the floor with her clothes soaked in gasoline ready for the match.

"I seized her and threw her across the table, and if her wrist was broken it was done when she struggled against me and threw her arm back to protect herself as I pressed the cloth soaked with chloroform over her mouth. I did not know her arm was broken, as I had no time to examine for broken bones, and the whole act took not more than three minutes. She must have broken it across the edge of the table, for when I seized her, I threw her on the table to complete the work with the chloroform bottles, of which there were two. I killed her deliberately to cost a few hundred dollars she posget a few hundred dollars she pos-sessed, intending to use half of it

for my two children, whom I had deserted in Texas with their mother, my other wife.

"The girl I killed was young and times. The afternoon of the murder she refused to give me her moner, saying that I would not even thank ber for it. I acted kind that day, knowing that I would kill her before night. She begged piteously while I was murdering her."

Fischer has denied his guilt every day since the commission of the terrible crime.

> Carnival Next Week - Balloon Ascension, big Shows. Special Train, Parades and Many Other Attractions-Other Local News.

There has been much complaint of late about the lack of facilities for flushing sewers. The statement is made that of the numerous laterals recently constructed, but two are connected for flushing purposes. Even the Van Buren main is without an arrangement for flushing. The condition has caused complaint to be uttered by many townspeople.

The matter was the subject for some investigation yesterday. developed that Contractor Smith. when the laterals were constructed laid his pipes convenient to the water company's mains where there were mains, and that he has been waiting for the Water Company to tap their mains, as is customary, and give him the connections necessarv. The Water Company, in

turn, appears to have been waiting for the council to make some arrangements with reference to proper remuneration for the water used in flushing. The matter has thus remained at a standstill, and meantime many of the laterals have become offensive.

Yesterday morning, President Far ra of the Water Company issued orders for the mains to be put in shape for all the connections to be made. There seems promise that the work of flushing will be put in full blast within a few days.
