**ART STILPSON HURT AT POCA TELLO.**

**In Railway Accident—Is to be Married on Twenty Fourth—Other News.**

In a train wreck at Poca'ello Sunday, Arthur Stilpson received injuries which will incapacitate him for a time. At the same time a fellow mail messenger was severely injured, and the fireman of the train was killed.

Employees at the Dornbecker camp, who have been engaged in logging hard wood on Tyra Smith's land have secured the timber purchase, and on Monday moved to a locality near Dallas. About next Monday Spaulding Bros. will begin their drive and the Dornbecker logs will be taken below with those of the Spauldings.

The steamer Pomona failed to reach Corvallis Saturday night on her regular trip, having gone aground on the Santiam bar. Notwithstanding the diligent efforts of the crew during Saturday night, Sunday and Monday, they were unable to clear her. Monday evening the Ruth on her regular up-river trip stopped to render the grounded boat what assistance she could. It was supposed that the Ruth would be able to pull the Pomona off the bar during Tuesday and continue her trip to Corvallis with the stranded vessel's cargo, allowing the latter to return to Portland. Regular service is to be resumed as the river maintains a fairly good boating stage.

Milner & Wellsher secured the \$5 cash prize offered by the Woodmen for the best decorated show window during the carnival. Many of our business houses showed excellent taste and much originality in their decorations, but there was no question with the committee as to the superiority of Milner & Wellsher's work. Their display was a very natural wooded scene in which there was a camp fire, over which a pot of beans was suspended in regular camp style, a tent containing a rustic bedstead and its appointments, a rustic dining table stood near, and not far distant were two Woodmen engaged with their tools in working up a log in to wood, some of which had been neatly corded. A clear shaded spring of water was noticeable, about which there was a profusion of moss and other vegetation. In the distance a deer stood beside a prostrate giant tree taking a survey of the intruders in his haunts. All the figures were in miniature and the scene was remarkably realistic.

**AT PHILOMATH.**

**Building Improvements and Additions to Business Houses—Other News.**

There was a large attendance at the Sunday school convention at the camp grounds Sunday.

Mr. Pugh, lately arrived from Oklahoma, has purchased the harness shop of Mr. Newton and has built a new building adjoining. He will open a hardware store.

The prohibition candidate for congressman received 46 votes in Philomath.

Several people were unable to vote at the Philomath polls on account of the lack of sufficient blanks for unregistered voters.

Hill & Son are building an addition to their store which will double the present size.

Rev. C. C. Bell has resigned as member of the city council on account of the intention of moving to California in the near future.

Prof. Baldwin, the newly elected president of College of Philomath, preached the annual sermon at Keezel chapel, last Sunday evening. Commencement exercises will be held at both colleges this week.

Prof. Pratt and wife, and Prof. Springer and wife have been engaged to teach the public schools the coming school year.

The committee appointed to collect subscriptions of stock for the grist mill report favorable progress.

**PHILOMATE.**

New York, June 13.—Pauline Burkhardt, aged 16, has been found by the authorities of St. Luke's hospital to be the victim of one of the rarest diseases, myelitis. It is a form of paralysis, and in two weeks has deadened every muscle in the girl's body below the hips. The girl had never been ill until this disease attacked her two weeks ago.

**HOW YOUNG MR. BYERS RECOVERED HEARING.**

(Salem Journal, June 22, 1902.) Mr. A. J. Byers, of Independence, accompanied by his son, A. G. Byers, called at the Journal office this afternoon and made a statement relative to the condition of the younger man. He had been deaf from his infancy, and later the difficulty gradually increased to such an extent that he was almost totally deaf. Two months ago the young man came to Dr. Darrin for treatment and today called at the Journal office to state that he could hear as well as anybody. The reporter talked to him in a low tone of voice and was convinced that his hearing was of the best. This remarkable cure of necessity makes the young man feel happy, and his father is more than pleased. Their purpose in coming to the Journal office was to make a statement to the public concerning the wonderful cure.

I. A. G. Byers, being duly sworn, deposes and says that the above statement written by the Journal reporter relative to my being healed of deafness by Dr. Darrin is absolutely true.

**A. G. BYERS.**

Subscribed and sworn to before me, E. Hofer, a notary public, in Salem, Oregon, this 10th day of June, 1902.

(Seal) E. Hofer, Notary public for Oregon. "Dr. Darrin: My hearing is all right yet, and has been ever since being cured by you last year. There is no sign of deafness now, and can be referred to by any one at Independence, Ore." A. G. BYERS.

**DR. DARRIN'S PLACE OF BUSINESS.**

Dr. Darrin can be consulted free at the Hotel Revere, Albany, until Aug. 1, from 10 to 5 o'clock daily; evening 7 to 8; Sunday, 10 to 3.

The doctor makes a specialty of all diseases of the eye, ear, nose and throat, catarrh, deafness, bronchitis, la grippe, heart, liver, bladder and kidney diseases or those who suffer from apathy and indifference; and genito-urinary and skin diseases in either sex, such as blood taints, seminal weakness and lost vigor, varicocele and stricture.

All curable chronic diseases treated at \$5 a week or in that proportion of time as the case may require. The poor treated free, except medicines, from 10 to 11 daily. No cases published except by permission of the patient. All business relations with Dr. Darrin strictly confidential. Electrical appliances furnished. One visit is desirable, though many cases can be treated by home treatment by writing symptoms. Eyes tested and glasses fitted.

This is the first visit of the head of the Portland firm of Dr. Darrin to this city.

**NEW USE FOR ELECTRICITY.**

(Albany Herald.) Electricity, long used in the laboratory for experimental purposes only, is fast coming before the public as an agent of great value in the arts and in the affairs of every day life. By electricity power to drive machinery can be utilized at the distance of miles from his source, and by electricity—thanks to Mr. Edison's recent discoveries—our streets and houses are lighted more brilliantly than by gas. While all these results are evident to the public at large, there is still another field in which the use of electricity is rapidly working a profound reformation—the field of medical science. The following remarkable cures, performed by Dr. Darrin, shows the new uses for electricity.

**CATARRH, BRONCHITIS AND CONSUMPTION CURED.**

MR. EDITOR: I will lend my name to the long list of cures performed by Dr. Darrin. Fifteen years ago catarrh and bronchitis troubles commenced to annoy me, and seven years later a complicated lung trouble showed itself. All efforts to cure were fruitless, until coming under Dr. Darrin's electrical treatment eight years ago. I am happy to say I am cured. I attributed my long continued good health to the health influence of electricity, which restored me to a permanently sound condition. I am news agent on the Southern Pacific Railway and pass Albany daily, and will gladly answer any questions at my home in Mount Tabor, Or. J. A. LINDSLEY.

**BACCALAUREATE DAY.**

**THE ANNUAL COMMENCEMENT AT THE COLLEGE USHERED IN LAST SUNDAY.**

Flowers and Bunting, Music and a Sermon—The Crowd Large and the Day Fine—Rev. Joseph Emery on the Platform—Other Local News.

Sunday was baccalaureate day at OAC. As a whole the exercises were even above the usual standard. There was a sermon by Rev. Allen Wilson of Indianapolis, Indiana, a prayer by Rev. Joseph Emery, who was a professor in the institution thirty years ago, and the best music that has ever been heard at the college on a similar occasion.

The exercises occurred in the Armory. The big auditorium was decorated for the occasion though not elaborately. National colors in bunting were draped along the galleries and streamers of orange were in display. There were palms, and potted plants on the stage, and the class colors of purple and gold were in profusion. As usual the attendance was large, the number being estimated at 1,000.

The graduating class occupied seats in the center, immediately in front of the stage. The faculty, choir and city ministers were on the platform. The invocation was by Rev. Noble of the Baptist church, and the scripture lesson was read by Mrs. Humbert of the Christian church. Rev. Green of the Congregational church read a hymn, in which the congregation joined, and Rev. Joseph Emery offered prayer. The latter was an eloquent petition, and its utterances recalled to many in the audience old days of 20 years and more ago, when Rev. Emery was a leading member of the college faculty. Delicate reference was made to the immense development that has taken place in the college in recent years, and there was a gentle invocation for a future of greatly expanded usefulness. Of especial excellence were two anthems sung by the choir. They were from the music recently prepared for the May Festival at Eugene. In contrast with the music of some former occasions of the sort, the rendition was with great precision and most excellent effect. The fine soprano of Mrs. Pernot never appeared to better effect, while all the other parts were carried with a vigor and finish that gave the audience great pleasure.

The sermon was more in the nature of an address to the class than a pulpit oration, but was none the less effective for that. It was intensely practical, and devoid all attempt at flowers. A characteristic was pungent illustration that frequently brought audible smiles from the large audience. It was a very strong address.

The theme was, "The Image of God." The speaker dealt entirely with rules and aims that young people should adopt for their guidance through life. It is not the proper thing to aim too high, was declared. The old saying, "Hitch your cart to a star," is poetical but not practical. It is no use to give a ten thousand dollar education to a thirty cent boy. The thing to do is to be perfect in the vocation that is adopted. It is better to be a success in an humble sphere than to be a failure in a higher one. "I would rather be a good bootblack than to be a failure as a physician." The rush of young people to the cities is founded on theories and plans wholly wrong. Young men hasten there to sell their lives to be the servant of somebody else, when they might remain in the country and be masters of themselves, and wholly independent.

It is the right plan to choose early the vocation that is to be followed, and then to mould all circumstances to that end. Of equal importance is the necessity of being frugal. The expenditure should be always less than the income, to the end that as gray hairs come there will be a competence and opportunity to take life easy.

Chamberlain's Stomach and Liver Tablets are just what you need when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by Allen & Woodward.

**NORTH BEACH.**

Excursion Steamer T. J. Potter Goes Into Service June 27.

Those who are planning their vacation this year will be interested in knowing that the popular excursion steamer, the T. J. Potter—queen of river boats—goes into service June 27, and that she will leave Portland every day from Tuesday until Saturday inclusive. To see the beauties of the picturesque and mighty Columbia from the decks of the Potter is a treat never to be forgotten. For speed and grace nothing in river or lake service in the entire West equals this side-wheeled beauty. Five hours from Portland, and one from Astoria, through the famous fishing waters of the Columbia, past scores of salmon traps, and nets and as many white-winged fish boats, lands the passengers at Ilwaco, where close connection is made for beach points with trains of the Ilwaco Railway & Navigation Company whose cars stand on the wharf awaiting the steamer. The beach is 27 miles long, two hundred yards wide at low tide and so hard that carriage wheels scarcely leave a mark. It is an ideal place for driving, riding, wheeling or walking, and the surf bathing is unsurpassable. The excellent hotels and boarding houses provide good accommodations ranging from \$1 to 3 per day.

The round trip rate from Portland to Astoria is \$2.50; to Ocean Beach points \$4, good until October 15th. On Saturdays during July and August, round trip tickets are sold to beach points at \$2.50 good for return leaving beach following Sunday evening.

The Oregon Railroad & Navigation Company has just issued a new summer book, free for the asking, which tells all about the delightful resorts of the valley of the Columbia. This can be obtained from any agent of the Oregon Railroad & Navigation Company or by writing to A. L. Craig, G. P. A. Portland, Ore.

**Startling Evidence.**

Fresh testimony in great quantity is constantly coming in declaring Dr. King's New Discovery for consumption, coughs and colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va. serves as an example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles consumption, pneumonia, and grip. Guaranteed by Graham & Wortham, druggists. Trial bottles free. Regular sizes 50c and \$1.

New York, June 4.—The Deforest wireless telegraph station at Coney Island reports at midnight being in communication with the Erin, which then was about 95 miles off Sandy Hook. The Erin was towing the Shamrock III. All four boats were together—the Erin, Shamrock III, Shamrock I and her conveyer. The Erin reports a stormy passage. The boats should reach Sandy Hook about 6 a. m.

At 2 a. m. the two Shamrocks and the Erin were about 60 miles off Sandy Hook. The following message was received for transmission to Sir Thomas Lipton: "Lipton: Arrived safely off Sandy Hook. Experienced rough weather during voyage. Shamrock all right. MATHEWS."

At 2:15 a. m. the Lipton fleet has been sighted off Fire Island.

**Try for Health**

222 South Peoria St., Chicago, Ill., Oct. 7, 1902.

Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

*Surgar Dumber*

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?
