POSTOFFICE OFFICIALS .DE-FRAUDED THE GOV-ERNMENT.

Many More Dismissals will follow -Who Some of the Su-pects Are-No Effort to Bemade to Prosecute Them-Other News.

Washington, July 23 .- The removal of Charles Hedges will be followed by other dismissals when various features of the present investigation into the postal service are completed. Those employees under suspicion or against whom minor offenses are alleged will be quietly discharged. No effort will be made to prosecute them. Among them are believed to be the follow-

George A. C. Christiancy, acting as assistant attorney-general, who was relieved from duty at his own requeet.

There will be other subordinate officials and many high-grade clerks removed. This will be done one at a time. It is determined to clear the department of all those who were intimately associated with the Beavers and Machen regime and against whom petty irregularities have been alleged or strong suspicions directed.

Contrary to his declared intention, Charles Hedges, who was dismissed yesterday from the position F E Dewey, 386 Davis street, Portof superintendent of city free delivery, today asked for an investigation and reinstatement. He also filed a claim for 16 days' leave of

absence with pay. In answering Hedges' assertion that during the years 1898, 1899 and 1900 he had not taken one day of regular leave, officials of the postoffice department declare that the reason Hedges did not take a leave of absence when a vacation was coming to him was that if he had done as he wouldn't have had an excuse for charging up a per diem allowance, and his salary was all that would have been paid him. As it was he took the side trips, received a regular salary, and charged up per diem expenses.

Miss Dane suffer-ed from spinal trouble, and had to hobble about on crutches and could scarcely speak above a whisper. Last Thursday, while descending the stairs in her home, she fell and last step struck against her chest Immediately the pain from which she had suffered for many years left, and after being taken to a couch and lying there for awhile, she got up, and, to the surprise of every one, walked without the aid of crutches. Many physiciars had treated the case unsuccessfully for
