Council From Employing Mountain Water Engineer—Emery Says so—So Does Yates.

The statement is made that the city council is to be enjoined in its effort to secure a preliminary survey and estimates for the mountain water system.

The matter came up when an ordinance was proposed, authorizing a special committee of the council consisting of Rennie, Avery and Hansell to contract with G. N. Miller for a preliminary survey of the water route and to furnish estimates of the cost of the system.

When the ordinance came to a vote, Mr. Emery explained his vote saying, that he would vote against the plan to employ the engineer and get the survey, because he did not want to be held personally liable for the cost of the survey.

Councilman Hansell also explained his vote. He said he concurred fully in the remarks of Mr. Rennie.

The only vote against the ordinance was Emery's. The roll called the following: Ayes, Avery, Irvine, Covell, Rennie, Buxton

Hansell; nays, Emery; absent, Colbert, Porter.

The grounds upon which the alleged injunction will be brought are supposed to be that the city has exceeded its limit of authorized debt, and cannot legally contract any further indebtedness.

The ordinance that was passed authorizes the special committee to contract with Mr. Miller to supply a survey and estimates at a cost of \$15 per day and expenses, not to exceed 15 days.

BENTON'S SCHOOLS.

Will Make Fine Showing at the Lewis and Clark Fair.

That Benton county will do herself proud at the Lewis and Clark Fair would seem likely, if one may judge by the specimens, in various lines that are being collected for the Benton exhibit.

Two schools are competing for the five and ten dollar prizes offered by the county court for the best collection of polished woods. These are the Mt. View and Bellountain schools, and the specimens submitted are a credit to Benton.

Among the other exhibits so far received from the various schools of the county, is a quilt made of woolen goods, sent by the 7th, 8th and 9th grades of the Philomath school. The quilt is a perfect map of Oregon, the names of the counties being worked with silk floss.

The Corvallis public school has done much to its credit in this collection. There is work of various kinds showing the course of study in all the grades. Each subject treated is furnished with a front-piece of pen and ink work done by the student.

From Alsea comes the story of Hiawatha, illustrated in what is known as "busy work" or needle-work done by pupils in their spare time. The specimens are a credit to the school. Other schools that have so far contributed splendid work are Beaver Creek, Districts 43 and 74 near Albany, Monroe, Kings Valley, Wells, Blodgett, Summit and others.
