Rumors of a marriage are afloat, and it is said that a farm has been secured for the young couple.

St. Louis, Mo., Nov. 29.—United States Senator Joseph R. Burton, of Kansas, was today sentenced by Federal Judge Vandevanter to six months' imprisonment in the county jail and to pay a fine of \$2,500 for accepting compensation from the Reito Grain & Securities company of St. Louis for using his influence while a member of the United States senate in behalf of that concern in certain matters pending before the postoffice department at Washington. Burton's motion for a new trial was overruled. An appeal will be taken to the supreme court.

The crime that Burton was convicted of was similar to that which Senator Mitchell of Oregon was convicted of and in whose case the sentence was a fine of \$1,000 and six months' imprisonment.

The writ of error was acknowledged by the court and the bill of exceptions filed. A motion for a writ of error to act as a supersedeas was granted, and the case will now be passed upon by the United States supreme court. Burton filed a bond for \$5,000 for his appearance in the higher court.

Stanford University, Cal., Nov. 29.—Miss Anna Strunsky and Miss Ree Strunsky, her sister, sail from San Francisco this morning for Geneva, Switzerland, the headquarters of the Russian Revolutionists, to join in the rebellion against the czar.

Miss Anna Strunsky was a student at Stanford several years ago, and since that time has lectured extensively throughout the United States on socialism. She is well known because of vigorous attacks made on the czar in her public utterances. With Jack London she is the joint author of the Wade-Hampton letters. She has contemplated a trip for some time, but the departure of her sister, who is a candidate for graduation in December, comes as a surprise.

The young women will receive instructions at the Geneva headquarters and proceed on their hazardous journey to Russia. Both are very pretty and intelligent.

Albany, Or., Nov. 29.—Thad Jones, of Edensburg, Pa., who is here today, preparing to take his sister, Ella Marshall, back to his home state, where she will be confined in the insane asylum, says that on the same day his sister was arrested here on the charge of forgery, his father died, leaving an estate of \$40,000 to be divided among the four children. He says, too, the woman obtained the money for her vain pursuit of her husband, to whom she was married a short time ago, from Charles M. Schwab, a resident of the same county.

Miss Marshall arrived here several weeks ago and went to the home of L. C. Marshall, whom she claimed as an uncle. She was in a pitiable condition and was allowed to remain all night. The next day she presented a check at the First National Bank for \$500. Asked for indorsement she went out and soon returned with the name Clay Marshall written across the paper.

The forgery was so palpable that the woman was immediately arrested. Examination showed her to be insane and she was committed to the asylum last Friday.

Washington, Nov. 24.—Congress will once more attempt to settle the question of the distribution of the Osage Indian fund and the allotment of the Osage lands at the coming session. It has been frequently printed that these Indians of the Osage bands are the wealthiest people on earth. According to the latest census there are 1,895, including mixed bloods.

The treasury department holds in trust for them the enormous sum of \$8,372,000, upon which they receive an annual interest of 5 per cent. In addition to this, those pampered red men have a very large income from the leasing of the oil and gas lands.

The average Osage family consists of five persons and the average income from the trust funds and leases is \$1,885 per family. In addition to this the reservation owned

by these Indians comprises 1,470,000 acres of the most desirable land in the territory of Oklahoma. It is proposed to divide this reservation and assign to each member of the tribe 160 acres, or in other words, 890 acres to the family, and to sell the remainder, consisting of 1,166,000 acres, for their benefit.

If this plan is carried out the treasury department will hold to the credit of the Osage Indians approximately \$50,000,000, giving each Indian a trust fund of \$23,000, and at the rate of interest now paid by the government, each family will have \$5,000 in addition to 800 acres of the choicest agricultural land in the southwest.

There is no community of people on the face of the earth the members of which are individually as rich as these Osage Indians will be in actual cash if this plan is carried out.
