—The jumps held of elsewhere as having been killed by C. R. Frasier on Mary's Peak, was exhibited in front of Long's gun store for several hours yesterday afternoon and attracted much interest. A crowd stood round the place as long as the car was exhibited, and remarked on the beauty and apparent strength of the cat-like beast. Frasier says there are more of the animals in the vicinity of where this was killed, and that he expects to secure others. The skin was secured by Patterson, and will be mounted and taken by him to the University of Pennsylvania.

—Mrs. Hogg, widow of the late Col. T. Egerton Hogg, arrived in Corvallis Sunday, on a business visit. Her late husband's estate comprises property in this section, and the errand of Mrs. Hogg is to investigate the status of things. She left yesterday for an absence of a day or two but is to return for a sojourn of a fortnight in Corvallis.

—Sam Hartsock figured in an accident Monday morning. In fact, he was the sole figure in the accident, and it was of a nature that did not add either to Sam's good temper or good looks. While out for his usual horseback ride, the animal became unmanageable, and seeing that he would be thrown at the corner, Mr. Hartsock jumped. He landed in a mud-hole and was dragged for some distance through the mire, with no special damage save to his appearance.

—Smithson and Greenhaw of O. A. C. are prominently mentioned in an article in Sunday's Oregonian as possibilities for the International athletic games to be held at Athens, Greece, in the latter part of April. Neither will enter for the American tryouts. It is highly probable that either could, were the tryouts late enough in the season, be able to make the team. In his own event, neither has a superior on the Pacific Coast, and it is doubtful if either has an equal.

At King's Valley.

The past week has been very wintry out here. We had about one inch of snow on the ground one forenoon and a good deal of snow has fallen that melted as soon as it reached the ground. There is some snow on the hills around the valley now.

Spalding's men took down some saw logs last week. Altogether they have taken down about eight million feet and have twelve or fifteen million yet to drive. The drive last week did considerable damage to the dam at the King's Valley Flouring Mills.

E. O. Frantz is suffering with tonsillitis.

William Gellatly bought another drove of beef in and around the valley last week for the Salem market.

Doc Frantz lost a valuable work horse in an unusual way last week. He was turned out in the pasture and while running and playing he stepped on a short stick. The stick flew up and snagged him in the groin. He only lived a short time.

Cleveland Kibby of Condon, has been visiting with relatives the past week. Uno.

Paris, Jan. 20.—The American colony is amusing itself by betting which of its members will win in the legal battle between Countess Spottiswood Mackin and the Duchesse de La Rochefoucauld and her husband. The countess, who was ennobled by Pope Leo XIII, is the widow of the late State Senator Mackin, of New York, and was born Sallie Britton, of St. Louis, Mo. The Duchesse was Miss Mattie Mitchell, daughter of the late United States Senator Mitchell, of Oregon. The quarrel comes again before the courts this week and the decision hangs, so the betting is lively.

The duke and duchess rented the Countess' mansion here through a friend of the latter, according to statements in court. The duel tenants paid the monthly rent, \$200, only a short time. Then they complained that the furnace was out of order and dangerous and installed themselves at the Hotel Ritz. They demanded \$900 from Countess Mackin in the way of damages for the hotel bills they had to pay and the inconveniences they suffered.

Instead of paying damages, the countess had the duchess' furs, jewels, lace and silver seized and put in a creditor claim for \$2,000 damage, which she declares the Rochefoucauld did to her house.

Now they are alleging that Countess Mackin domicile is in America and that she will be obliged to deposit with the court a monetary guarantee of costs of suit before the trial of the main issue. She reports that her house here constitutes a domicile and affords sufficient guarantee.

Sampter, Or., Jan. 20.—The heavy storm which has prevailed in this section showed no signs of abatement until today. Snow has piled up to such a depth in many of the mining camps that it is almost impossible to do any surface work, except in the immediate vicinity of the mine buildings and shafts and tunnels.

Hauling of wood is next to impossible, as horses, wagon and all would simply disappear in the drifts encountered. At the Buckeye, snow is over eight feet deep on a level, and at the Mountain View, located at the greatest altitude of any working mine in the Cracker district, ten feet is recorded, and in places drifts have piled up 20 feet or more. In the Rock Creek section snow slides are already reported doing considerable damage to some mining properties.

The regular Sampter Valley passenger that went over to Austin, Thursday, was stalled on the down grade to that point, and it was necessary to send the snow plow over the road to allow the passenger to return. The train did not reach here until midnight, almost eight hours behind schedule time.

The road between here and Bourne, the most frequently traveled thoroughfare in this district, is in bad shape.

At Sampter the snow is four feet deep on the level, and the prospects are for a continuance of the fall.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Graham & Wortham.

Common Colds are the Cause of Many Serious Diseases.

Physicians who have gained a national reputation as analysts of the cause of various diseases, claim that if catching cold could be avoided a long list of dangerous ailments would never be heard of. Everyone knows that pneumonia and consumption originate from a cold, and chronic catarrh, bronchitis, and all throat and lung trouble are aggravated and rendered more serious by each fresh attack. Do not risk your life or take chances when you have a cold. Chamberlain's Cough Remedy will cure it before these diseases develop. This remedy contains no opium, morphine or other harmful drug, and has thirty years of reputation back of it, gained by its cures under every condition. For sale by Graham & Wortham.
