—In the estate of the late Harriet Hill, an inventory has been filed with the county clerk. The appraisal shows personal property of \$500 in money, and real estate to the value of \$1000. The appraisers were W. A. Jolly, J. G. Becker and J. R. Fehler.

—Albany Democrat—The Oregon boys continue to lead in the Eastern colleges. A. C. Gilbert, a former Forst Grove student and champion polevaulter, has won the athletic championship of Yale, capturing seven prize cups out of a possible eight. He is one of the four men who has won two Y's.

—In other days of late there have been occasions where there was a dearth of teachers for the country schools, but nothing of this kind is promised this spring. From the applications already on file with Superintendent Denman it looks as if the field would be actually oversupplied.

—At the meeting next week of the county court the question of dividing school district number 16, which joins the Corvallis district on the south is to be considered. The court in conjunction with the county superintendent constitutes the Boundary Board for adjudication of such matters. The division is asked for by the residents of Kiger's island, who desire to be constituted a separate district on account of the stream which divides them from the mainland and makes it difficult for children on the island to reach the present school house. It is also urged by the Islanders that they have twice as many children of school age as are in the remainder of the present district.

—W. C. Hawley of Willamette University, who is one of the three candidates for the republican nomination for congress in this district, left today after a day's visit in Benton. His business was strictly political, and the report is that he found things very satisfactory hereabout. He was born in Benton county, and resided here until he went to Salem to attend Willamette University. After graduation there he studied law and received the degree of "L. L. D." from his alma mater. Before he entered upon the practice of his profession he was called to a professorship and then to the presidency of the University, with which he is still identified. It has been said of him that he is not politician enough to be sent to congress, but this year happens to find voters hunting for something other than politicians for congressional timber.

Mrs. McFeron was born February 7th, 1823, at Montgomery county, Kentucky. At the age of 19 years, she was married to Andrew McFeron and moved to Adams county, Illinois, where she resided until the fall of 1854. They lived in Adair county, Missouri, until 1874, when they removed to Brownsville, Oregon, where Mr. McFeron died in 1892. Since October 1904, Mrs. McFeron has lived with her daughter, Mrs. L. E. Cathey in Corvallis. She was the mother of ten children, six of whom survive here. They are J. P. McFeron, Alameda county, Calif.; J. A. McFeron, Portland, Oregon; J. S. McFeron, Hay Creek, Ore.; Emily Hartford, Los Angeles, Mary E. Robnett; Halsey, Ore.; and L. E. Cathey, Corvallis.

—"The Club's" sign has been hauled down. The ceremony was performed by Constable Wells. In the silence and serenity of Wednesday morning he did the job. No vulgar assembly or curious rabble looked on. If any tears were shed, they were by the constable himself, for the birds twittered and sang in the surrounding trees, and they were the only witnesses to the sad and sorrowful proceeding. The sign was an affair of considerable dimensions. Besides the legend, "Corvallis Social and Athletic Club," it bore the significant words "Members admitted only" and then went on to give a proper warning to trespassers. Neatly and carefully folded, it now rests snugly on a shelf at the sheriff's office, a relic of a plan to do by subterfuge and sham, something that the law prohibited, that juries condemned, that courts censured and that the people voted should not be.

**FIGHTING THE SCALE.**

Immense Demand for Spray Bulletins—Spraying Outfits Behind With Orders.

The movement for saving Benton orchards is not abated. A commercial spraying outfit has been organized in Kings Valley. It is under the management of J. E. Watson, who consulted Prof. Cordley as to methods and appliances a few days ago. The two or three commercial outfits operating in town have not yet finished up Corvallis, and have many orders ahead keeping them busy whenever the weather is propitious. Farmers in the county continue to consult Prof. Cordley by phone and otherwise relative to the best plan of procedure. No less than 500 bulletins on spraying have been sent out within the past week in response to requests. A big extra edition of them printed because of the spraying movement in Willamette will soon be exhausted by the demand. The incident shows the widespread interest in the plan for redeeming the trees and fruits from diseases and pests.

The expense of spraying is not nearly as heavy as some suppose. The cost to the farmer who does his own spraying is only about two cents per tree for a single application, that is, of course, where there is a considerable number of trees. The cost, even if applied by hired labor and hired appliances ought not to cost more than six cents per tree, according to the statement of Prof. Cordley. However, most farmers are willing to pay more than this in order to save the botheration, especially when commercial outfits are available.

An idea of value to every tree owner is that just now it is easy and convenient to get spraying done. The San Jose scale will ultimately kill every tree it attacks, if no remedy be applied. That means that spraying must be done or the tree will die, or the inspector will order it destroyed. All infected trees can be easier saved now than later on when the disease is more violent, all of which means, that now is the time to spray.

**BUPIED TODAY.**

Death of Mrs. McFeron at the Cathey Home—The Funeral.

Brief services were held at the Cathey home at 10 o'clock today; after which the remains were taken to Halsey where the funeral occurred, Rev. Skidmore conducting the service. Interment was in the Brownsville cemetery, beside the late husband of the deceased, Judge Andrew McFeron.

**MONEY ROLLING IN.**

Five Hundred Have Paid Taxes—Fifteen Thousand Dollars Collected.

Sheriff Burnett is doing a swift business in the collection of taxes. Five hundred people have already taken out their receipts. It is estimated that an additional 1,100 will pay within the next ten days. About 1,600 is the number that usually pay in time to get the rebate. The last day for rebate will be March 15th. This means that there will be a mighty rush of business at the sheriff's counter until the 15th inst.

Sheriff Burnett's plan of sending lists of taxpayers and the amount of their taxes to persons in the various precincts is proving to be a matter of extreme convenience. That it is thoroughly appreciated by the taxpayers is shown by the way in which they make use of the lists. Every mail brings a shower of letters to the sheriff, containing checks or postoffice orders to cover the amount of the writer's taxes. This saves the taxpayer a trip to the sheriff's office at a time when traveling is not the easiest in the world and makes a light matter out of what would otherwise be a considerable task. It is painstaking, thoughtful methods like these that have made Sheriff Burnett noted all over Oregon as about the best sheriff in the state.

The total amount of taxes paid up to this forenoon was \$14,344.51. It is nearly as much as was paid on the same day last year, though last year the roll was received on the 26th of January, while this year it did not become available for tax-collecting until February 12th.

As everybody knows, three per cent rebate, is allowed on all taxes paid on or before March 15th. After that date, no rebate is allowed. Taxes become delinquent on the first Monday in April. If half his tax is not paid by that time, a penalty of 10 per cent and 12 per cent interest until date of payment, is charged. If half is paid by that time, the taxpayer has until the first Monday in October to pay the balance.
