Sawmill Injunctions When a Pure Water Supply is In volved-Oregonian Says Such Injunctions Should be Dissolved.
Portand Oresonian The Oregonian has taken occasion several times, when referring to the almost desperate situation at Eugene, on account of the
great prevalence of typhoid in that city in recent months, to speak great prevalence of typhoid in that city in recent montts,
of a pure water supply as the only guarantee of safety for the stud-

This disability was for some reason overlooked by This disability was for some reason overlooked by the founders of
the University, and more surprising still it continues to looked by the legislature. The experience of the present $\mathrm{y}^{\circ} \mathrm{ar}$ at Eugene has been especially unfortunate, "boiled water" having been the order to students for many months, and typhoid fever cases. notwithstanding this precaution, ruaning up into the hundreds
Corvallis, the seat of the State Agricuitural College, is similarly situated, though the citizens and students there have thus far been more fortunate than has been the case at Eugne, Taking warning by the experience of the latter city and adding thereto some experience of its own, Corvaliis has undertaken, according to the
statement made by one of its citizeus, "by straining its sredit and spending $\$ 75,000$, to supply the 700 studenits of the college with spending $\$ 75,000$, to supply the 700 students of the college witi

sawmills, one of which, according to this correspondent, has been in operation for several years, having absolutely no timber to feed upon, and the other being but seldon, in operation, claim the water of this stream and set their relatively trifling personal interests up againat the effort to obtain the needed supply of pure water
for the college and town. The case as represented is a remarkable instance of an attempt to set up private welfare against the public benefit. The simple fact is that Corvallis must have a pure water
supply or be guilty of a grave offense in urging students supply or be guilty of a grave offense in urging students to come being an acknowledged tenet of law and a passport to public safety, it may be hoped that the injunctions may speedily be dissolved and the work of supplying pure water to the Agricultural College and the town of Corvallis be allowed to proceed.
