and Poole through the fingers. When the mob saw this it stopped firing. Only seven shots had been fired, but all had taken effect.

The negro was then thrown into a wagon and brought into the city, but died before the city was reached. He was dead five hours after he committed the crime.

New York, Aug. 1.—Another man returned from Florida to the East Side yesterday with a story of escape in Florida, and another letter has been received from a man there begging aid. There are still 50 immigrants who are known to have started for the Florida camps within the last six months, who have not been heard of since.

David Krill, who lived with his sister, Mrs. Jennie Abramowitz, came home after an absence in Florida of several weeks. When he left this city for the turpentine camps he was in good health. When he came home yesterday his sister did not recognize him, and attempted to drive him out of her flat. His back was black and blue, and still marked with deep red scars where he said he had been whipped. He had been taken to Jacksonville, he said, and from there to Mateo. He was then carried to a camp in the woods, where there were butts and negro guards. At the end of two weeks, he said, he found that he owed the company \$24 above his promised \$12 a week. He was still strong, and decided to escape. He ran away one night, and in the morning found that he was lost. Later in the day he was recaptured and beaten.

The next morning while he was at work in the swamp, one of those with whom he had shared the company's stores slipped \$30 to him, which he said he kept hidden in a boot. This man did not dare to escape, but he begged Krill to take the money, and if possible to get North as far as to the horrors of the slave camp. That night when he saw the guards were asleep, Krill slipped through the lines and managed to reach a city. He worked his way as far as Baltimore, and from there walked to his sister's home in this city.

Mrs. Berard Sklot, of 292 Cherrist street, received the following letter from her son yesterday, dated Mobile, Ala:

"I do not dare to give the exact place where I am. This is written at night and forwarded by a friend who is in greater danger than I am. If he should be caught with it he would be killed like a dog, as others have been. I escaped and walked 100 miles in four days, when I was found and brought back and beaten."

Woman's Trials.

The bitter trail in a woman's life is to be childless. We cannot tell how hard the struggle may have been or how she learned to resign herself to her lonely lot? The absence of this link to bind marital life together, the absence of this one pledge to mutual affection is a common disappointment. Many unfortunate couples become estranged thereby. Even if they do not drift apart, one may read the whole extent of their disappointment in the eyes of such a childless couple when they rest on the children of others. To them the largest family does not seem too numerous. In many cases of barrenness or childlessness the obstacle to child-bearing is easily removed by the cure of weakness on the part of the woman. Dr. Pierce's Favorite Prescription has been the means of restoring health and fruitfulness to many a barren woman, to the great joy of the household. In other, but rare cases, the obstruction to the bearing of children has been found to be of a surgical character, but easily removable by painless operative treatment at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., over which Dr. Pierce of the "Favorite Prescription" fame presides. In all cases where children are desired and are absent, an effort should be made to find out the real cause, since it is generally so easily removed by proper treatment. In all the various weaknesses, displacements, prolapsus, inflammation and debilitating, catarrhal drains and in all cases of nervousness and debility, Dr. Pierce's Favorite Prescription is the most efficient remedy that can possibly be used. It has its credit hundreds of thousands of cures—more in fact than any other remedy put up for sale through druggists, especially for woman's use. The ingredients of which the "Favorite Prescription" is composed have received the most positive endorsement from the leading medical writers on *Materia Medica* of all the several schools of practice. All the ingredients are printed in plain English on the wrapper enclosing the bottle, so that any woman making use of this famous medicine may know exactly what she is taking. Dr. Pierce takes his patients into his full confidence, which he can afford to do as the formula after which the "Favorite Prescription" is made will bear the most careful examination. Dr. Pierce's Pleasant Pellets are the best and safest laxative for women.
