—It's a true story and it transpired recently in Albany. She was agent for a patent health device, and in answer to her knock an elderly lady opened the door. "I have here something that I would like to show you in the interest of good health," she began, but she in the doorway piously and solemnly rolled her eyes skyward and interrupted, "In this house we look to God for health." "All right, Madam, I don't run opposition to God" was the quick reply as the agent bowed her way out of the family gate.

—The campaign for new sidewalks within the cement pavement district, continues, and before the expiration of the wooden walk limit, every walk in the district bids fair to be renewed. The movement is so marked that the sidewalk lumber market is swamped. One builder waited nearly three weeks before he was finally supplied. Many orders are in that are unfilled. The cement ordinance as finally passed, takes effect about the 15th of October. After that time all walks within the established limits will have to be of cement. The limits extend from Washington street, which is the street on which the C. & E. spur runs, to Van Buren, and from Main to Ninth.

E. E. WILSON, ATTORNEY AT LAW.

—Twenty three young people journeyed to the summit of Marys Peak Saturday, and thereby hangs a tale. Half left on a bay rack in the morning and the other half in the Hotel Corvallis bus in the afternoon. The latter strayed from the trail into the road made in the construction of the Mountain water pipe line, and at nightfall found themselves at the intake on Rock Creek, without food and but little shelter. There the night was spent, and without breakfast next morning the estrays made the ascent of the peak, reaching the summit at 11 o'clock. The original half of the party reached the summit early Saturday evening. Part of the mountain climbers arrived home Sunday evening, and the others about 11 last night.

DEATH OF MIKE.

Sunday's Merciless Heat Was too Much for Him and He Dropped by the Road-Side.

Mike, the faithful dog in the home of Dr. Pernot, and one of the best-known dogs in Benton, is dead. Whether it was poison or a case of too much heat that killed Mike, is not known. He always followed Dr. Pernot in professional trips about the town and county, apparently considering himself a necessary adjunct of the medical establishment of which the doctor is the head.

For nine years he has dozed beside the buggy and horse or kept watch at the farm yard gate while his master ministered at a patient's bedside. He made his last trip Sunday afternoon, far into the country, trudging faithfully at the rear of the buggy through the dust, smoke and heat until he fell exhausted by the roadside. That happened near the country place of Mrs. Ann Smith. On arrival home, Dr. Pernot missed his four-footed friend, and in spite of blistering heat, drove back the state road in search of him.

By the side of the fence lay Mike, as the buggy approached. "Here, Mike," and with infinite trouble the stricken animal managed to raise himself on his knees. He gazed in the direction of the buggy, but could not see. The sight was gone with the ebbing life but there was recognition of the well-known and loved voice that called, "Here, Mike," and another unavailing effort to move and another pathetic but sightless gaze.

He was lifted gently into the buggy, and driven rapidly home. Remedies were applied with all the gentle care incident to human ministrations but it was too late to save Mike. He died two hours after his owner found him by the roadside.

SEEKS DIVORCE

And Willing for his Wife to Have the Children—Former Philomath man.

George W. Parker has brought suit for divorce from his wife Mary Parker. He resides at Oregon City and has brought the case in the circuit court for Clackamas county. She lives at Philomath, and as a maiden was Mary Pulse. There are several children and in his complaint Parker says he is willing for his wife to have them.

Parker is known to fame in this county as the plaintiff in a damage suit against C. H. James for alleged libel. James is also under criminal indictment for what he wrote about Mr. Parker in a scurrilous article in which in practical effect he said Parker did not try to save his wife and children but rather looked after saving his gun when a boat capsized with them in Yaquina Bay, all of which Parker says is villainously false. James also said in the libelous article that Parker did not give his children sufficient food and that neighbors had to take and keep some of them until they were fed back to robust health.

Both the criminal and damage cases are scheduled for trial at the November term of the Benton county circuit court. Parker formerly resided near Philomath where he and James occupied adjoining ranches, and where, according to all accounts the course of neighborly love never ran a bit smooth.

MORE HOT WAVE.

Sunday Was Tornid With Heat, Dust and Smoke—Thermometer Was 98.

Visitation by a hot wave has happened to Benton. It was here in all its pristine beauty Sunday. That was a day in which the old inhabitant sweltered and squirmed like a land pirate on trial before Henty. When the day was done he was all in, and he didn't give a whoop whether school kept or not. The top notch touched during the day was 98 in the shade. It was too hot to lie down and too hot to sit up. Such breezes as blew came off of the sky scrapers of Portland and were a exasperating reminder of what might have been if they had been zephyrs from the sounding sea. Besides the heat, the atmosphere was full of dust and smoke which added all kinds of discomfort to the torridity. When the average citizen lay down on his virtuous bed about 10 o'clock at night and pulled the drapery of his couch about him he uttered a fervent note of thanksgiving for the Willamette Valley night which never goes back on the man who longs to be cool.
