LOCAL LORE.

For advertisements in this column the rate of 15 cents per line will be charged.

-Fisher sells the Trowbridge piano.

-There is to be a box social at Oak Ridge, October 19th, beginning at 7:45. The announcement appears elsewhere.

-Neil Newhouse who has been for three weeks at Toledo, where he running a sawmill, arrived home Saturday.

-Ben Woldt returned to Portland Saturday, after a brief visit in Corvallis.

-Campbell's Bakery has secured the services of Dick Llewellyn the famous bread and cinnamon roll maker.

-Senator Fulton gave it out at Astoria yesterday that P. S. Malcolm of Portland is to be recommended for collector of customs at Portland.

-Mrs. J. K. McCormick, who now resides at Brownsville came out from Alsea Saturday on her way home. She had been over to the valley to visit friends and the old home which the family disposed of twenty years ago. Her husband a well known pioneer of Benton county, died at Brownsville a month ago.

-Materials are arriving for the local system of the Bell telephone. In the lot is a big consignment of telephone poles, similar to those in use on the Independent system will be installed. Also that a large amount of new cable will be added to the facilities. The company has leased the room next door north of Moses store to be used for its purposes, whether as an office or not, it is understood, has not been determined.

-The balance of uncollected taxes on last year's roll this morning was \$1,782. The amount in the beginning was in round numbers, \$76,000. The smallness of the delinquency is a handsome showing for Sheriff Burnett. Of the amount, a considerable part is the last half owed by persons who have hitherto paid half their taxes. They ought to pay up soon, for it won't be long until additional expense will be added by the advertisement.

-It is planned for the new Taylor brick to be occupied the latter part of this week. The meat market that was the tenant when the place was an antiquated wooden structure will move in by that time if the progress of the workmen in finishing up meantime is sufficiently swift. The place will be one of the most complete as well as one of the neatest meat markets in the country. For the most part it has a cement floor and is partitioned off into lard room, meat room, refrigerators, and other spaces required in the business. There are two handsome offices in front on the upper floor. The rest of that floor is for the present a large hall, 70 feet or more in length and 23 feet wide suited to various purposes. Ultimately, it may be divided up into office rooms, skylights having been provided with that idea in view.

-Mr. and Mrs. Theodore Cranz arrived from San Francisco last Friday and passed on to Alsea where they will visit for a time with the latter's relatives. Mr. and Mrs. Cranz until recently were engaged in the restaurant business in San Francisco. They passed through the earthquake without great loss, but since that event the demands of labor have been such as to practically ruin their business. The city is infested by hard characters who ply their vocations with such immunity from punishment that Mr. Cranz felt that San Francisco was a good place to get away from. "You know," said he "that I am very jealous of my personal safety. There were too many hold-ups and to many people knocked over on the street to allow me to feel entirely comfortable there."

-A team of horses with wagon attached and in full flight, ran down the grade at the ferry this morning, plunged into the river, and performed several varied and interesting stunts. The outfit belongs to Henry Stone. Being left alone, the horses took fright somewhere on top of the bank and fled precipitately down the grade and into the Willamette. The boat, in charge of Fred Blumhart, was fifty feet away and approaching the west side. It had two teams aboard. When he saw the runaway coming Mr. Blumhart turned the boat up stream. The runaway after reaching the water, headed down stream. Charley Beach happened along and plunging in, seized the horses and steered them ashore. The wagon bed floated off the running gear and was not recovered. Otherwise the damage is nominal.

-Wheat 58; oats, 26 to 29; eggs 30.

-Mr. and Mrs. DeVarney, have arrived, and will have Corvallis for headquarters for a couple of months.

-Albany is to have a new union depot for joint use of the S. P. & C. & E. Similar facilities ought to be provided in Corvallis.

-Reno Hutchinson, who umpired the OAC-Willamette at Corvallis, and the OAC-Multnomah football game at Portland, last year, was murdered by a thug in Spokane yesterday.

WANT MILLIONS OF POTATOES. Out of Which to Make Alcohol—Six Thousand Acres Must be Pledged.

A denaturized alcohol factory is a possibility for Coos county, if farmers there will pledge 6,000 acres of their land to the growing of potatoes, the factory will be built. German capitalists offer to do the building. Their representative was in the county and at the farmers institutes held there last week by the OAC staff. The matter was presented at each of the four farmers institutes, and some of the farmers pledged their lands to the potato cultivation. Eight dollars per ton is offered for the potatoes, and the best lands there will give a yield of 20 tons, it is said. One reason Coos is preferred by the promoters is because coal is handy for fuel.

The government supervises the manufacture of denaturized alcohol. It is made into pure alcohol from potatoes and other products, waste and otherwise, and stored in bond until a government representative puts wood alcohol or other poisonous substance into it so that it cannot be used as a beverage. It is then put on the market and sold at prices that will put coal oil out of business for illuminating purposes. The number of factories allowed to be built this year was limited by the government to six, and in this connection it is interesting to learn that of these the Standard Oil captured two. The alcohol was displayed for illuminating purposes at the Coos county institutes and burned in an ordinary lamp it made a beautiful light of about 40 candle power, which was very clear, and entirely odorless.

FOR THE WOMAN'S BUILDING.

Board Authorizes Contract for its Erection to be Signed—Work Begins Soon.

The Woman's building at the college is to be materialized. Work incidental to its construction is expected to begin shortly. A special meeting of the board of regents, held at Portland Friday night, authorized the president and secretary to enter into the contract with H. Snook for the erection of the building according to his bid, accepted by the building committee some time ago.

The plan is to be that adopted by the committee and described some weeks ago in the TIMES. The cost will be in round numbers, \$72,000. The structure will be of pressed brick is to be completed by July 1st next year, and will be furnished and ready for use at the opening of college next September. The building completed, will accommodate 300 girls and house the dressmaking and household science departments.

At the meeting President Weatherford announced the adjustment of the McCully-Quinlan matter to the satisfaction of the war department and the establishment of complete concord between the department and the college.

Resolutions were adopted authorizing the president of the board to ask the war department for an issue of 180 rifles for use of the cadet regiment in addition to the 300 now in use. As it is there are 500 cadets with but 300 rifles to drill with and the added supply is required to provide all with arms. The issue of a complete supply of Krag-Jorgenson rifles in exchange for the Springfield rifles in use is requested.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, which can only be done when the remedy is kept at hand. For sale by Graham & Wortham.

Rogoway's Second Hand Store.

Uncle Josh Perkins.

The attraction at the Opera House on October 17th, will be the ever reliable "Uncle Josh Perkins" the most successful comedy that has been produced in years. The press wherever this company has appeared, unite in declaring it one of the best on the road. "Uncle Josh" is playing in Portland this week, and according to the Oregonian is making a big hit. "Uncle Josh Perkins" is a standard play, it is kept up to date, it is interesting, laughable and teaches a moral. Several novel mechanical effects are introduced, depicting the amusements and simple pastimes of country life, including a genuine husking bee and a hilarious barn yard dance. A feature of the company is the famous hay seed band. Reserved seats on sale at usual place. Prices, 35, 50 and 75 cents.
