Steamer Hankaw, from Canton, was burned at 3:10 o'clock this morning, while lying alongside her wharf. Hundreds of Chinese passengers were burned to death and a valuable cargo was destroyed. All the European passengers and crew were saved.

The steamer Hankaw, with 2,000 Chinese passengers, men, women and children, and even Europeans and a cargo including 3700 bales of matting, 560 bales of raw silk and 400 bales of waste silk, arrived from Canton at 3 o'clock this morning, and was shortly afterward moored at the wharf.

The chief officer reported to Captain Branch that the ship was afire. The captain then directed the chief engineer to turn on the water through the fire hose. This was impossible, for the reason that within five minutes after the alarm was given the Hankaw ablaze fore and aft.

Captain Branch then awakened the European passengers, who rushed down the gangway, the ladies in their night close. The crew was compelled to leave the ship, which by this time was a veritable furnace.

The Chinese steerage passengers were thrown into a frightful panic. Horrifying shrieks and cries to save their lives were heard, but escape was impossible, owing to the infernal nature of the cargo. Hundreds were burned to death and many others jumped into the harbor and were drowned.

Responding to signals, the British cruiser Flora and the naval dockyard dispatched contingents of engines and assistants. The floating brigades of firemen made heroic efforts to extinguish the flames, which leaped to a height of over 60 feet.

The British steamer Powan, which was berthed at the same wharf, was towed out to save her from destruction. A neighboring pier a hundred yards distant was burned to the water's edge.

The fire was brought under control at 6 o'clock a. m., at which time only the shell and hull of the Hankaw remained. The gruesome work of recovering the dead was then begun.

The fire-fighters have already recovered 75 corpses. Many of them were huddled together and only singly, while others were incinerated beyond recognition. Of the cargo, 200 bales of raw silk were saved but badly damaged by water. The remainder was totally destroyed.

There are many theories as to the cause of the fire. The first is that it was caused by the overturning of a lantern of a Chinese boarding-house runner who came aboard seeking customers. The second is that an opium smoker accidentally set fire to matting, the third is that it was caused by the crossing of electric wires. A fourth theory, and one that is considered most probable, is that the fire was incendiary and was an outgrowth of a boycott against river boats.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, which can only be done when the remedy is kept at hand.
