WAS NOT MENINGITIS.

But Ptomaine Poisoning-Cause of Arthur Belknap's Death-The Funeral.

Statement of Portland physician: "I am thoroughly familiar with all the details attending the case of Arthur Belknap, who died yesterday morning. I was called to see him Monday morning at 9 o'clock and found neither spinal nor brain disturbances. He complained of uneasiness in the intestinal tract, had a temperature of 103, and his feverish condition presaged a case of ptomaine poisoning. I saw the patient again at 6 P. M. and learned that during the afternoon he had several vomiting spells, and his condition otherwise only strengthened my first diagnosis of ptomaine poisoning. There was not even a single indication of the usual symptoms of meningitis.

case was a very serious one, and requested them to notify me by telephone, a few hours later as to how he was progressing. About 9 o'-clock some one phoned me and said that his family physician had re-

stip graves, but permission was denied. The boly was not present at the funeral which occurred in the First Methodist church at 10 to 30 yesterday. The remains arrived from Portland Wednesday noon, and the funeral party was met at the station by the cadet regiment and band and escorted to the late home. The college flag was athalf must drive the committee high esternish and band and escorted to the late home. The college flag was athalf mast driving the ceremony and so remained until after the funeral in honor of its graduate dead.

At the funeral, a large concourse of friends attested the high esternish which the young man was held. The service was conducted by Rev. Feese and was very impressive. The floral offerings were among the finest every seen at a local funeral. Twelve members of his praduating class were present and their offering was a handsome floral plece. WHEAT PRICES RAISING.

There Is a Big Export Demand Both for Wheat and Flour.

—Wheat is 63 and 65 in the local market. The higher figure is for grain delivered at the mills from the wagon. The advance is due to a big demand for export. The price in Portland has soared to 73 for Valley, and 85 for Western Oregon. There's a good prospect of even better figures. The crop is shortened in California, and in many other states dispatches in the metropolitan papers relate that but three per cent of the usual acreage is sown in North Dakota and it was snowing there Wednesday. Farmers were ploughing in the snow with only a chance that they could get their fields seeded in time to raise a crop. The like in that state has never been known before. Estimates are, that the crop of the country will be the lightest in years. Along with it is an unprecedented demand for flour, for export to the Orient. The Corvallis mills is overwhelmed with export orders and is running night and day, but even under these strenuous operations is unable to keep up with orders. The price for shipment abroad is much better than for the home trade. What change might come to alter I acquainted his friends, who the situation and usher in lower were present, with the fact that the prices again nobody knows. but at the present time the prospects for good wheat prices this season are flattering beyond the usual.

THE BRIDGE COLLAPSED.

THE BRIDGE COLLAPSED.

And Farmer and Team Went Down—
One Horse Killed—Wants Damages.

The very next morning I learned that the patient had died and that the cause of his death had been given as spinal meningitis.

A great deal has been printed of late regarding this malady and many of our citizens have been needlessly alarmed. As in the case at hand, there is hardly any excuse and certainly no cause for the attending physician to aggravate an already overwrought public sentiment."

The foregoing statement appeared in yesterday's Oregonian over the signature of A. Tilzer, M. D., and is self explanatory. The malady has been accepted all along as spinal meningitis, and because of the contagious character of the disease, the funeral arrangements were conducted accordingly. The remains were in a sealed casket, which was not opened after leaving Portland authorities if it could be removed at the grave, but permission was deficiled. Even the lid of the outer box was not removed. Telegraphic in quiry was made to the Portland authorities if it could be removed at the grave, but permission was deficiled. UNITED STATES LAND OFFICE:

Roseburg, Or., Feb. 1907.

Notice is hereby given that in compliance with the provisions of the act of congress of June 3, 1878, entitled 'An act for the sale of timber lands in the states of California, Oregon, Nevaca, and Washington Territory,' as extended to all the Public Land States by act of August 4, 1892, James W. Walters of Monroe, county of Benton state of Oregon, has this day filed in this office his sworn statement No. 7817 for the purchase of the north 1-2 of northwest 1-4 of section No. 32 in Township 14 S. Range No. 6 W, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before county, at his office at Corvallis, Oregon, Namicy Buckinghams of Byton Woolridge, of ""

Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said left day of May, 1907.

-A band hes been engaged for the All Benton-School-fair. The committee is to take up in a few days the matter of cheap railroad rates for the event.

-Charles Armstrong of Beaver Creek and Miss Daisy Cochran of Ripley, Ohio were married at the Methodist parsonage Wednesday, Rev. Feesee officiating.

-One of the most cowardly and dastardly attempts of incendiarism was discovered as Monroe Wednesday by Ed. Looney, who is with A. Wilhelm & Sons. The fiend had planued well to burn the entire business property of the firm hav-ing saturated grain bags with oil and placed them in the center of a building formerly used as drug store, but now occupied for warebouse purposee. That a conflagration was avoided is a miracle, for the fire burned several holes thre ough the floor. The owners have strong suspicion as to the perpetretor's indentity, and are now having the matter investigated, with great hopes of bringing the guilty parties to justice.

NO MORE TROUBLE FROM PUNCTURES.
Result of 15 years experience in tire Notice the thick rubber tread "A" and puncture strips "B" and "D," also rim strip "H" to prevent rim cutting. This tire will outlast any other make—SOFT, ELASTIC and EASY RIDING.

Result of 15 years experience in tire making. No danger from THORNS, CACTUS, PINS, NAILS, TACKS or GLASS. Serious punctures, like intentional knife cuts, can be vulcanized like any other tire.

Two Hundred Thousand pairs now in actual use. Over Seventy-five Thousand pairs sold last year.

DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphalt or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price to the rider of only \$4.80 per pair. All orders shipped same day letter is received. We ship C.O.D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send FULL CASH WITH ORDER and enclose this advertisement. We will also send one nickel plated brass hand pump and two Sampson metal puncture closers on full paid orders (these metal puncture closers to be used in case of intentional knife cuts or heavy gashes). Tires to be returned at OUR expense if for any reason they are not satisfactory on examination.

We are perfectly reliable and money sent to us is as said as in a bank. Ask your Postmaster, Banker, Express or Freight Agent or the Editor of this paper about us. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you what a bleycle you will give us your order. We know that you will be so well pleased that when you want a bleycle you will give us your order. We want you to send us a small trial
