ALL AT WORK

PREPARING EXHIBITS FOR ALL BENTON-SCHOOL FAIR.

What Various Districts Are Doing Many Lines of Display Will Be in the Competitive Exhibits.

Interest is waxing warm all over the county in the big All-Benton-School Fair. Such an array of exhibits as was never seen before will be on display. In every precinct and school district, young people are striving to produce products or handwork that will win one of the many prizes. There will be a revelation of Benton's possibilities when the exhibits are all in place when the fair occurs. Wait and see. Here are statements of work in progress in various districts:

District 43. The following is my report on the Benton County School Fair: The seeds were distributed among the pupils, each pupil choosing the seeds he wished to plant. The boys choosing the vegetable seeds while the girls choose mostly flower seeds. Much interest has been shown in the work and if conditions are favorable I think their display will be a creditable one, considering the size of the school and the age of the pupils.

Much encouragement has been given the pupils both at school and at home, and I think the interest will be stimulated by the parents during the summer as they have shown much interest in the work. The school may not have a full exhibit, but expects to make a good showing in individual work.

Edith McCourt, teacher.

The following are names of the pupils who will take part in the fair: Helen Hodges, Erwin Rodgers, Harold Bailey, Wallie Krockner, Charlie Hale, Albert Hele, Verl Hale, Pearl Bailey, Herman Bailey, Elsworth Kay, Hazel Kay, Dollie Glen, Alva Krockner, Monroe Win, Anna Holman.

Clona Davitt, teacher, Albany, Or.

District No. 3. The pupils of district No. 3 expect to be heard from as well as seen at the fair. Garden making is in progress and if work has anything to do with it we will get our share of the prizes. We also expect to take part in the writing, map drawing, spelling ciphering and all other contests. We have our shoulders to the wheel and we are going to lift to make the fair a success. Look out for us for we're going to be there.

Walter Winniford, teacher.

District No. 5. District No. 5 is very busy, preparing for the fair. We will have exhibits in the agricultural, drawing, writing, sewing and cooking departments. We expect to have a complete exhibit, and are trying for one of the grand prizes for our district.

The children are all deeply interested in the coming fair, and are doing their best. Their parents, also, are interested, and are encouraging them to put forth their best efforts. Every child in the school will be represented at the fair.

Etta Young, teacher.

District 36. This article was prepared for us before Mr. Miller found it impossible to continue the school. We will have a later report from the present teacher to appear shortly.

The children are pleased with the prospect of a pleasant time with other schools and an opportunity of comparing the hard work they are doing with the work of other schools. I think it is an added impetus to the pupils and teacher as well as for thoroughness in their work. Although the spring has been backward and work in the gardens greatly retarded, the seeds distributed to the schools, with many others, have been safely put away in boxes of loam prepared by the children in their homes, and the knowledge of conditions necessary to produce best results are eagerly sought for.

I have noticed the rainy day play time seems to be pleasantly employed by the girls in various kinds of sewing; and as for baking bread, every method known among women is being investigated.

The enthusiasm in this fair is not and should not be confined to the school and teacher; but every man, woman and child should do their

best to demonstrate this fact, to the many visitors that will be at the fair, that they do not see it all from a car window. It is an opportunity never enjoyed before, by rural neighborhoods, to show to the public the special advantages of their neighborhood in the way of good schools and highly productive soils, and the result of the fair should not be highly educative alone but a social and financial benefit as well.

R. R. Miller, Summit, Or.

Roseburg, Or., June 4.—The contractors who are boring the well on the Southern Pacific's property near the roundhouse in this city, made an unexpected discovery last Friday. For the past month they have been drilling through a hard blue stratum, but Friday the drill at a depth of 600 feet, passed through this formation, and into a sand resembling sea sand, but considerable at this point. A very salty and brackish water began flowing into the well and soon reached a depth of 130 feet, or nearly sea level. The United States geographical surpluses the exact measurement at the place as being 464 feet above the sea.

Drilling operations were at once suspended, and the strike reported to the Southern Pacific officials, who will investigate, as the contract is for a 1000-foot well, and it is not known whether the company will continue the work or not, as their object in drilling the well is to get a supply of pure water for use on the trains and engines.

London Tit-Bits: Among the historical curiosities to be seen at Chatworth House, the residence of the Duke of Devonshire, is a willow tree that actually weeps, very often to the personal discomfort of those beneath it.

To the casual observer it appears just an ordinary willow, but on close inspection it is seen to be artfully artificial. It is made from a metal to closely resemble a living tree, and each of its branches is covered with innumerable holes. In fact, the whole tree is a monster syringe, being connected to a water main near by.

The key for turning on and off is close at hand, and many a visiting party has been enticed beneath its branches by practical jokers.

New Orleans, June 4.—The sentence of the court in the Greene and Gaynor cases, involving over a half million dollars fraud in government contract work in the Savannah Harbor, was affirmed today in an opinion handed down by the United States circuit court of appeal. The sentence is four years' imprisonment each and a fine aggregating \$575,000.

Judge Snelby and McCormick rendered the opinion, and Judge Pardee dissented.

Benjamin F. D. Greene and John F. Gaynor, the defendants, appealed on 1903 assignments of errors. Most interesting of these was the claim that their extradition from Canada, a case which went to the privy council of England before being finally tried, was illegal. They alleged they were extradited upon one offense and tried upon another. Upon this point the court says:

"It is not unusual, nor would it be expedient or practicable, for a warrant of extradition to describe the crime with all the fullness that would be required in an indictment. Warrant of extradition and indictment must be for the same criminal acts, it does not follow that the crime must have the same name in both countries."

Chicago, June 4.—Chicago's army of meat-eaters is facing a run of high prices which threaten to force the men who do not earn more than \$2 a day to a vegetable diet. Meats of all kinds, with the exception of the poorest cuts of beef, have been rising steadily for three weeks and dealers say that the advance will continue.

In some of the poorer sections of Chicago retail dealers have not handled a piece of meat except beef for the last three weeks. Lamb, pork and other meats are beyond the reach of their customers. The retailers found that these meats were spoiling on their cutting blocks because people could not afford to buy them, and in consequence they quit buying of the wholesalers.

Lamb advanced three cents a pound in the last three weeks and the big wholesalers say they cannot

A Plain Business Talk

—ON—

MODERN MERCHANDISING METHODS

In the march of progress now entering the Willamette Valley & especially in and around the vicinity of our town, nothing is more conspicuous than the spirit of progress among our merchants, to this end and to keep in the front rank in the business community, we shall inaugurate a series of modern methods in the line of

"Profit Sharing Sales"

that should be appreciated by all our patrons.

This will not mean that we shall have a sale of every article in the store, but one line of merchandise will be taken from each Department every week, and offered you at such a reduction that will not fail to have your hearty support.

This week we shall offer

Dress Goods & LADIES SUITS SPECIALS

MONDAY JUNE 10 TO SATURDAY JUNE 15, none sold before or after this date at these prices

65c Wool Dress Goods at 48c

These goods come in popular Shepherds Plaid effects, 40 inches wide, all wool.
