

Why was our power back on **just hours** after a windstorm?

MARILYN BROCKEY
IBEW 125 MEMBER
 Journeyman Estimator
 Knappa Resident

Because IBEW 125 Journeyman Estimator Marilyn Brockey had a **26-YEAR HEAD START.**

“I love living in the Astoria area — I was born here and raised my own family in Knappa. I started my union apprenticeship in 2006 and became a Journeyman Estimator in 2009. Most days I’m out in the community, meeting with people and mapping out the best way to get safe and reliable power at their home or business. And when there’s a storm, I organize repair crews and help flag to keep traffic moving and workers safe.”

The communities IBEW 125 serves are where we live and work, and in the Astoria area the people we serve are our neighbors. IBEW 125 Journeyman Estimators like Marilyn train for over three years — longer than it takes to become a lawyer — before they go to work in your community. And because outages can happen at any time, Marilyn’s commitment keeps her on call 24 hours a day.

IBEW 125. Trained and ready to answer the call.
