CAMPING ON OUR COAST

Story by Lynette Rae McAdams & Rebecca Sedlak

From the primitive sites deep within our state and county forests, to the plush accommodations of a modern KOA — there's a campground on our coastline with just the dose of Mother Nature you've been looking for.

No matter the season, outdoor lodging is always within reach, and now, you can have your s'mores and eat them too. Whether you're looking to blaze a trail, watch the stars, or simply hit the beach, this quiz will guide you to the

cleanest bathrooms, the hottest showers, and the driest firewood for miles around.

Whether you're hiking in, plugging in, or pitching a tent; packing trail mix and a canteen, or goose down pillows — here's to happy camping!
