# Help AHS junior get to Stanford

Morgan Postlewait, a junior and an honors student at Astoria High School, was recently accepted into the Stanford University's High School Summer College program, which places students from around the world at the prestigious university for summer quarter. But she needs the community's help paying her way to Palo Alto, Calif.

**Morgan Postlewait**

"I am very excited about this opportunity," Postlewait said. "This experience will go beyond helping me get into the top universities; it will also make me more successful once I am there. I am ready for and need this opportunity for this academic challenge. Without

attending Stanford High School Summer Program, I fear I am not competitive enough to gain admission for undergraduate studies to the schools of my dreams, such as Stanford and Harvard. The drawback to the pro-

gram, she added, is the cost, about \$15,000. She's received scholarships through Stanford and from Astoria High School Scholarship Inc., along with contributions from family and friends. As of Tuesday, Postlewait had more than \$2,200 left to raise through her online fundraiser at [www.gofundme.com/morgantostanford](http://www.gofundme.com/morgantostanford)

Only 550 of at least 5,000 applicants were offered admission to this program.

According to Astoria High School Principal Lynn Jackson, "Morgan is a special student and has been extremely proactive in her education. She has continually sought additional

learning opportunities and has not shied away from an academic challenge. We are very excited for Morgan and know she will represent our community well."

"I want to be a doctor," Postlewait said. "I want to heal people and spend time overseas helping those who don't have readily available access to health care. We are all people. It doesn't matter where you are from or what you look like. We all get sick. I want to help."

# Avenue U Bridge to close temporarily Thursday

SEASIDE — The Avenue U Bridge will close for a few hours Thursday for the Oregon Department of Transportation's regular inspection process.

The city does not know when

the inspection will start or end, but residents should plan for the bridge to be closed from noon to 3 p.m., with the majority of the work lasting two hours, according to a news release.

Traffic will be detoured to Avenue G during the closure.

ODOT workers will use a "snooper" truck and crane to inspect the structure, including underneath the bridge.
