NOTICE OF AVAILABILITY OF ENVIRONMENTAL ASSESSMENT AND FINDING OF NO SIGNIFICANT IMPACT FOR HOMEPORTING OF TWO FAST RESPONSE CUTTERS IN DISTRICT THIRTEEN

The United States Coast Guard (USCG) announces the availability of the Environmental Assessment (EA) and Finding of No Significant Impacts (FONSI) for the homeporting of two Fast Response Cutters (FRC) in District 13.

The USCG proposes to homeport two FRCs within the CG's Area of Responsibility District 13, in either Astoria or Newport, Oregon. The new FRCs are part of an ongoing effort to replace Island-class 110-foot Patrol Boats that are nearing the end of their service life. The Sentinel-class FRCs are capable of deploying independently to conduct missions that include port, waterways, and coastal security; fishery patrols; search and rescue; and national defense. These vessels will help reduce the USCG's current Patrol Boat gap, allowing the USCG to better complete its various missions.

The EA identifies, describes, and evaluates potential environmental and socioeconomic impacts associated with potential homeporting of the FRCs and associated facility modifications at three alternative locations and a No Action Alternative. The EA also documents cumulative impacts from projects which are proposed, under construction, recently completed, or anticipated to be implemented in the near future.

The EA was prepared in accordance with the requirements of the National Environmental Policy Act (NEPA) (42 United States Code); Council on Environmental Quality Regulations for Implementing NEPA (40 Code of Federal Regulations §§1500- 1508) and associated CEQ guidelines; and Coast Guard Commandant Instruction (COMDTINST) M16475.1D, National Environmental Policy Act Implementing Procedures and Policy for Considering Environmental Impacts. The EA serves as a concise public document that provides evidence and analysis for determining whether an Environmental Impact Statement or a FONSI is proposed. The EA includes the purpose and need for the action, the needed action and alternatives, a description of the affected environment, and an analysis of environmental consequences.

Based on the findings of the EA, the USCG concluded that the proposed action would have no significant impacts on the environment and issued the accompanying FONSI.
