

BUD OF THE MONTH

featuring

MR. DOOBIES

Q- I'm a senior and feel a little uncomfortable going into a store to purchase marijuana. What can I expect?

A- Our typical customer age is 50+ so you will be amongst friends. Our bud tenders will take the time to answer your questions and you will leave feeling good about your experience and excited to try out your new products!

Purple Nurkle

Strain- Indica

Strain Highlights- Purple Nurkle is as complex as its flavor palette. It is believed to have been bred from a specific Granddaddy purple or Mendocino purple, with an essence of skunk and berry with fresh grapes. Patients have reported that this Indica heavy strain can be deeply relaxing, sleep inducing and is a great option for full body pain relief.

THC- 21.31% CBD- .08% MMD#- 69714

Sticky Bitch

Strain- Indica

Strain Highlights- Sweet Reliefs house strain. This one is of unknown genetics, rescued from near death. She boast a deep pine and skunk aroma with a hint of kush almost musky. She's best known for her ability to remove aches and pains. People with anxiety seek Sticky Bitch out knowing how well she helps in a rough situation. Since being a heavy indica, it's suggested that you use Sticky Bitch in the evenings.

Larry OG

Strain- Indica Hybrid

Strain Highlights- Larry OG is a member of the famous Ocean Grown family originally created in Orange County. This indica cross between OG Kush and SFV OG creates a pretty potent, yet easy body buzz. The effects are happy but not overwhelming. Like other members of the OG family, this strain has a very clean and piney aroma. The nugs do tend to be dense and feature distinct burnt orange hairs that are longer than average.

Raspberry Kush

Strain- Indica

Strain Highlights- Raspberry Kush is a great tasting indica strain who's raspberries and cream aroma keeps patients coming back for more. This strain will lead to a bit of a body melt but it can be surprisingly upbeat for an indica. It may also leave newer patient feeling pretty lazy but many do find this to be a quite creative flower making it great for music, art, stress, pain, depression, insomnia and even nausea.
