

RICKENBACH CONSTRUCTION PROJECT | 2007

## BANKER'S SUITE

**Client:** Blue Mars  
**Location:** Astoria, OR

**Architect:** Michelle Dieffenbach  
**Project Size:** 5,000 Sq. Ft.

This project consisted in a complete restoration and remodel of the second floor into a large suite. Some of the existing structure and much of the interior finishes were repaired or replaced due to water damage. The windows were in such bad condition they had to be removed and replaced with wood windows matching the dimensions and profile of the original windows. Rickenbach Construction sub-contracted with Bear Windows to supply and install the historical windows. This work was completed while the main floor was occupied as a commercial spa. This project received the Dr. Edward Harvey Historical Preservation Award in 2007 from the City of Astoria.

RICKENBACH CONSTRUCTION PROJECT | 2013

## WAUNA FEDERAL CREDIT UNION

**Client:** Wauna Federal Credit Union  
**Location:** Warrenton, OR  
**Architect:** Partin & Hill Architects  
**Project Size:** 3,445 Sq. Ft.

**Subcontractors:**  
Big River Construction  
JP Plumbing  
P&L Johnson Mechanical

This project consists of the construction of a new credit union with drive-thru services and on-site customer and employee parking.

The finishes for the interior were high end and required coordination and attention to detail. The exterior site development included the construction of a decorative retaining wall built with large natural rocks.

Congratulations,  
Rickenbach  
Construction, on  
50 years of integrity.  
Thank you for your  
creative ideas and  
high quality of work  
on the renovation  
of our beautiful  
Banker's Suite and  
the soon to be  
Museum of Whimsy.

— Trish Bright

Congratulations on  
**50**  
YEARS!
