Indica Dominant Hybrid

Quality Growers- Mr Doobees Exclusive

Strain- Alien OG (Quality Growers Finest Hand Grown)

Strain Highlights- Alien OG is a cross of Tahoe OG and Alien Kush. This indica-dominant hybrid has the typical lemon pine OG smell and flavor, and an intense high that combine heavy indica body effects and a psychedelic wonderful buzz. Beginners and novices, be sure to take it very slow with this heavy hitter. Alien OG is not for over indulgence without caution. It offers a full body and mind high, that will envelope you fully and quickly. Depending on your dosage used at one time, please start with very small amount size of a small pea. Alien OG's high easily lasts 2-3 hours. It is not a wake and bake strain nor is it a strain recommended for consumption before any serious activities require focus and attention. Recommended to get comfortable with your favorite couch or chair, turn on a movie, and treat yourself to full relaxation. Euphoria, & enjoyment, leaving all the stress of life from mind and body. Alien OG pleases & relaxes your mind, then gradually seeps into your body providing complete melting of all cells into the greatest feeling of floating. It is simply out of this world wonderful! A nights sleep has never been so GREAT!! Start slow with a dosage use of a small pearl size and gradually increase to reach the level of desired outcome you seek, your enjoyment will be exponential when you proceed with caution.

Indica Dominant Hybrid

Quality Growers- Mr Doobees

Strain- Platinum Girl Scout Cookies (Quality Growers Finest hand Grown)

Strain Highlights- Platinum Girl Scout Cookies is an evolution of the infamous OG Kush and Durban Poison hybrid strain, Girl Scout Cookies. Platinum Girl Scout Cookies takes this strain a step further, adding a third, unknown strain to the Durban Poison/OG Kush cross. A cannabis cup winning hybrid, well renown for it's potent mood elevation euphoria and the deep relaxation it offers. The strain has a pungent aroma, an interesting blend of early spiciness with hints of sweetness and berry overtones of full flavor. The buds are a vivid sage green color and are heavily coated with crystal trichomes. These generously frosted sage green nuggets also feature dashes of dark purple tinges, making it a truly beautiful strain. Despite the outlandish name, PGSC has a plethora of practical medical applications. The pain relieving effects can be great for dulling migraines and arthritis pain. Both physical and mental problems quickly drift away when medicating with Platinum Girl Scout Cookies. Effects of this strain are balanced between a mind and body full of relaxation and euphoria. Potential exists for heavy sedation and heavy drowsiness, with dosage use over 1/2 gram at a single usage, so be advised to dose in a fashion supplemental to your schedule, body type, and your metabolism rate of processing any herbal or pharmaceutical product. Start slow with a dosage use of a small pearl size and increase gradually to reach the level of desired outcome you seek, your enjoyment will be exponential when proceeding with caution.

Frankenstein

Strain- Indica

Strain Highlights- This bud's effects have been equated to turning you into Dr. Frankenstein's monster – you'll be sedated, yet active, with a sense of lethargy and an insane case of the munchies. Upon the onset you'll experience an uplifted euphoria that quickly fades into a relaxed head high with substantial mind relief. As the high continues, you'll fall into a state of laziness as well as a distant spacey introspection. Because of these effects, Frankenstein is ideal for treating chronic pain, anxiety or stress, arthritis, and appetite loss. This bud has a surprisingly delicious aroma of pungent sweet mango and a taste of sweet citrus with a hint of pungent mango upon exhale.
