HAPPY

A big thank you to the 5th graders and their teachers for their participation!

EARTH DAY

Earth Day is important to me because I love saving the Earth. Some small changes we can make are to stop polluting, and pick up after ourselves. The world would become disgusting because we wouldn't take care of anything, and animals would die.
-Mercedes Walter

I think that we should help the Earth so it's not covered with trash. i think we should pick up trash in the park and at the beach and plant more trees for wildlife homes. I think that if we don't help the Earth, it will be filled with trash.
-Marcus Bolles

I think Earth should have Earth Day because it help the animals, the environment, the trees even people. On Earth Day I think that if we just pick up one thing we could help save the world from a population of trash. Just one day could save the world.
-Lokie Meadows

Earth day is a day when we take care of the Earth. All of us should not litter and take care of our trash, and that is how I think the world can be better. I think that can change the world.
-Mathew Castillo

What Earth Day mean to me? It means you can pick up trash. To make a small change, I can plant a tree every Earth Day, because people cut down the trees all the time to make paper. If we never help the Earth it would have trash all over.
-Skylar Olson

I think it is important to cut invasive plants on Earth Day because, they will take over the space for native plants which will take animal's homes away. So if you do cut invasive plants, it will make safer homes for us and the environment.
-Christian Womack

I think the Earth is special in its own way! If we keep the Earth clean, then it is special still. I love the Earth, so I will go around the earth and clean it to keep it my favorite and we also should take out the invasive plants too!
-Tori Birdeno

Our Earth is amazing. To me, Earth Day means working to stop pollution, to save animals & energy. I think that if we all made a small act on Earth Day, things would be better. On Earth Day think of Mother nature, & all she does for you.
-Emelia Cameron

What do you think that will happen if we don't work towards a better Earth? If we don't, our lives may come to an end because our world could even become a trash can and if that happens, there won't be anything for the wild animals to eat.
-Hanna Breitmeyer

The Earthiest Day
Earth day is the greenest, most specialist day to keep the cleanest. I go outside to play in the green grass, but the time pass. There's still much trash to pick up, And recycle plastic cups. If we didn't clean the Earth, then it would have no worth.
-Emma Bufkin

Earth Day means saving the world. To save the world we can pick up trash, recycle, upcycle. The earth will end if we don't care for it
-Jon Clark

Some things to help the earth is to not litter and recycle. People, get up and walk over to the recycling bin to throw everything in the garbage. You should not cut down unnecessary trees and plants because if you cut trees the air will be bad.
-John Clement

Earth day means to pick up trash and plant new plants. Some small changes could be no littering, and plant at least two flowers a month. I think the Earth will become a nasty place and no one will want to live there if we do not protect it.
-Marisabel Condit

Earth is the place where everyone lives so why wouldn't we want to keep it clean and healthy so we can be? I think that if we start out small like recycling it can help a lot. When it's Earth Day, think of how you can help the Earth & everyone in it.
-Susan Foss

Earth day is important because it is saving our world. By doing many things like driving electric cars and cleaning up we can save the world. If we do this we can help save our planet and make it a better place. That is how we change our world.
-Judd Field

Earth Day is a day to go out somewhere and pick up trash and recycle. Some things we can do to impact the environment is picking up litter. I think Earth Day is important because if we do not participate many plants and animals will die.
-Connelly Fromwiller

Earth day is a day to care and clean up our home that we share so we can all live happy lives. We can clean up garbage and be careful of what we throw away in the garbage bins. We can also help Earth's animals. If we do not clean the world, it will be a dirty, polluted place.
-Kaden Gasser

Earth Day is very important to me because I love to keep the Earth clean. A couple of ways that you can keep the Earth clean is by using less paper products, so we can save the trees. If we don't help the Earth is will fall apart.
-Kendall Hankwitz

Earth Day is a day to help the Earth. We can help by cleaning the beach. If we don't help now then we could end up having a place we don't want to live in. If we don't help now we will still have a mess to clean.
-Anika Haskett

I think one change in the world could be to pick up after yourself. Then the animals in the water would not be so nasty. They would not get stuck in are garbage and it would make the world a better place. So people that pick up the garbage would make life a lot easy. This is what i think could make the world a better place.
-Tony Sanchez

What does earth Day mean to me? Well, it means a lot to me. I think we could do a little better than what we're doing now, do you? What we can do is take more invsive plants out of the soil and it will be a better environment.
-Connor Toolan

Our world can get dirty by people littering and we need one day to appreciate Earth and clean up, good thing Earth Day exists! On Earth Day, we should clean up our environment, for example, you could go around your neighborhood picking up trash. Please help our Earth!
-Lindsey Wingard

Earth Day is beautiful day and I hope that when I die this Earth will be super clean. Earth Day is special because it is the day we celebrate our clean earth but the reason I like earth day the most is because it's a day that we clean the Earth and help it.
-Conner Colvin

Earth Day is a day to honor earth, kind of like its birthday. It's a day to celebrate all that it's given us, it's a big deal because there's so much to explore...Anyway I hope you like my short opinion of the Earth and all its glory!
-Andy Link

What do I think about Earth Day? I think we could do better, taking out invasive plants so we could have more soil. Planting the better plants like trees and others that animals use can make the world better. That's what I think about Earth Day.
-Ayla Ford

What does Earth Day mean to me? Well Earth Day is a lot to me. I'll tell you a few things about what Earth day feels like to me. Earth Day means to be more kind to our planet and just to have fun! Plus I think Earth Day = Awesomeness.
-Brody Spencer

What does earth day mean to me? Well it means to help the universe by recycling and picking up trash. What are some small changes I can make? Some small changes I can so is help people not litter. If nobody helps the Earth? Then the Earth would be trashed.
-Jadea Keller

Earth day is the day that everyone cares about the Earth even though we should daily. We should stop wasting all our food. If we do not work towards a better future for Earth the planet will start dying and we would have to find a new planet.
-Michael Easter

Earth day means helping keep our environment clean. We can pick up our trash and not leave it on the ground. Another thing is to make more garbage cans. If we don't pick up our Earth it would fill up with trash.
-Kaylee Falleur

Earth Day is when we help the Earth! We could pick up garbage around the world and recycle it. If we don't work towards a better Earth, it will be dirty and smell, kids will be hungry and homeless, and people will have nothing so we better get working.
-Tania Cruz

The earth is a beautiful place, so let's keep it beautiful. That is why we have Earth Day. Without Earth day, the Earth could be trash. So we should have and keep Earth Day.
-Aiden Giles

Earth Day means good, it means a better place. On Earth Day we'll make a difference, plant a tree or make a garden. If you want to make an impact, volunteer to pick up trash. Try to make a better world. Support Earth Day!
-Georgia White

If I could change the world I would make sure no cigarettes are allowed because they pollute the air all around us. I think if we kept on polluting, littering the earth would become a trashy place. I think if we all work, together the Earth would be an even better place.
-Gabby Conklin

Earth Day means to try to help the world. One small change would be to stop littering and throw away garbage. If we didn't help the world would start to die.
-Tucker Golightly

Earth day is very important, and also very amazing for the world. You can help save the Earth by not using so many plastic bags. You can also help by not littering all the time. If we do not try to make the earth better it would be an unhealthy environment.
-Olivia Pettefer

Earth day to me is, helping the environment, like picking up & throwing trash away. Helping the environment can make the earth a cleaner place. Changes, like picking up, planting trees, etc, can make the environment better. If we didn't clean up the earth, then the environment would be not a very pretty sight.
-Cerenity Sauer

Earth day is a day that you can celebrate the Earth and everything about it. You pick up trash to help the Earth. Also you can help the Earth by cleaning it. You can help the Earth by helping people too. Making houses for people helps the Earth too.
-Ivorey Westley

To me Earth Day means that people are doing things to help the planet green. Some little things we can do are, pick up garbage and plant trees. If the earth does not get taken care of it will be polluted and animals will become endangered.
-Ella Zilli

I think that having a clean healthy world is very good. I do think though that we could possibly work on throwing stuff away in recycling or trash. Also if we can't have people clean up after themselves, then it will NOT be an easy lifestyle for all of us!
-Maria Wagner

The Earth is a great planet to live on. But, what happens if we don't take care of Earth? Well, it will be just plain terrible. Litter would be all over, trees would be gone and no one would live. We need to start doing everything to help the Earth.
- Xzavya Brott

Earth day is a day that people celebrate the Earth, & do things to help clean up the Earth. One thing that could make a big impacts is if people pick up after themselves. If we don't do these small things, then the smaller things can turn into much bigger things.
-Darby Doyle

Earth means a lot to me, and I think our big marble would be a much better place if we did small things like using reusable bags, composting, and recycling. There are projects like that on a larger scale, and we should go after those. If we didn't try to make the Earth better, then, to make a long story short, the planet would be devoid of life, so, SAVE THE EARTH!
-Kellan Randall

Earth day is where people clean up the Earth so it looks good. Maybe some people should throw trash away instead of throwing it off the side of the road and then having people clean it up. You should clean up after yourself to keep the earth clean.
-Trent Telen

Earth Day is a day when we take care of our Earth. We could keep the rivers and oceans clean. We could also remove invasive plants. If we don't, non invasive plants could not have enough room to grow and fish could die from eating the trash.
-Stian Matthews

Earth Day, is a day, where people celebrate by helping our planet! We do this by cleaning streams, recycling, and planting trees! If we don't care for our Earth, it might become polluted and unlivable. That's what earth Day is about and why we should keep our planet clean!
-Onyx Baker

Earth day is great to save the environment. We can recycle trash so there is less trash to hurt the environment. If we don't save the Earth, the trees will die and it won't look good any more. I hope people help the Earth.
-Peyton Boyle

It's important to take care of the Earth. The earth is our planet & it's our job to take care of it. You might think that it's a really big job for one person, but if everyone makes an effort we can have impact. So this earth Day, I encourage you to reduce, reuse, recycle!
-Ada Ashley

Earth Day is a good day for me because I go out and plant trees. We can plant trees so the environment will get cleaner. The evergreen commercial is a good example of Earth Day. We will have an apocalypse if we don't plant trees.
-Karson Hawkins

I think that Earth day is good for the planet as it was planned to be. Stop using power plants and start getting electricity from solar energy using solar panels. The world would be way too polluted and animals would start dying off if Earth isn't protected.
-Kristian Johnson

Earth day is very special. This is an opportunity to help the Earth. We can do a lot of things to help earth like stop using factories. i think if we don't work toward this we'll have no water and less food.
-Veronica Lake

What Earth day means to me is to protect the Earth. We have to save the Earth from people that litter. They need to throw it in the recycling bin. Then we will have a great green Earth.
-Thomas Laman

Earth Day means a celebration to collect trash for the Earth to get healthy. To stop trash from being thrown on the ground, we could have more trash cans. The world could have more dangers and we could get hurt if our world is a mess.
-Kestly Larsen

Earth Day is important to our humanity because if we don't keep this world clean and healthy that will affect our lives. One thing we should do is RECYCLE! If we recycle harmful plastics that will reduce pollution. We can also put garbage in the trash!
-Reagan Linnett

Changes we could do to make a big impact on Earth is stop littering around the world. Earth is very important to me because without Earth there is no life. If we don't work on the changes to make Earth clean, Earth would have global warming.
-Rayce Mcgee

Earth day means to take care of plants and keep the Earth clean. Planting flowers and plants will be fun to grow and learn to plant them. If we don't take care of the Earth it will be dirty because no one picked up their trash.
-Elizabeth Warren

Earth day means a lot of different things for me. When I get home I like to play outside. Some ways to help the Earth is to plant trees, and recycle. Save the Earth to make is a better place.
-Ansil Everett Rainey

Earth Day is important to me because it is a day we clean up our home planet. Some small changes we can make that'll have a great impact is we can recycle recyclable items. I think if we didn't work towards a better Earth, Eearth would be a dangerous planet.
-Landen Mitchell
