

ANNUAL ENGINE RAFFLE REVS UP THE FUNDRAISING

CONTRIBUTED PHOTO

Steven Whitaker, center, of Woodland, was the 2015 winner of the 32nd Annual Rod Run to the End of the World Engine Raffle. A long tradition, the raffle begins with an unadorned engine that Beach Barons members accessorize and finish. It is taken to many shows throughout Washington and Oregon, starting with Camp Rilea near Warrenton, Oregon, in April. The engine is exhibited each year at the Washington State International Kite Festival in Long Beach in August, at which Beach Barons volunteer, hauling people and products around on carts.
