Shela Pierce

OWNER, J&S APPLIANCE

Jim and Shela Pierce purchased their business in 1984 from Joe Nerenberg, owner of Hildebrand Furniture. For several years it was just Shela and Jim. Shela did everything from sales to repairing appliances, ordering parts, keeping the books. To say the least she was very busy!

In May, 1990 J&S moved to 1442 Commercial, Astoria to expand their sales floor, providing reconditioned appliances with handy street-level access to customers. Later, the new building was built in Warrenton. Shela oversaw the construction of that building and later, their new house where she would eventually set up a home office.

Customer Service is a belief practiced at J&S. Jim & Shela Pierce along with a friendly, knowledgeable sales staff, factory-trained appliance and refrigeration technicians continue to offer reliable, reputable service since first opening their doors for business. The J&S staff has more than 100 years of combined experience and still has a great reputation for "Going The Extra Mile" to achieve customer satisfaction every day.

Sunset Electrology

I was an electrolysis client first and am so glad that I started my business in 1999. I think the best part of my job is helping clients feel good about their appearance. Many things in our physiology can cause unwanted hair. Electrolysis can treat any hair — new methods are expensive and cannot guarantee results. Schedule a consultation and see if electrolysis is your prescription for unwanted hair.
