

Love, loss and royalty star in Netflix drama ‘The Crown’

By **LYNN ELBER**
AP Television Writer

LOS ANGELES (AP) — Britain’s Queen Elizabeth is known for her dedication to a demanding job. Claire Foy, who plays Elizabeth as a young ruler in Netflix’s “The Crown,” can claim the same. Foy accepted the central

role in Netflix’s 10-part series when she was pregnant, knowing that filming would begin just a few months after her daughter’s arrival.

The series is reportedly Netflix’s costliest to date, pegged at \$100 million. The money is on the screen in lavish scenes such as Elizabeth’s coronation and location shooting in Scot-

land and South Africa.

“The Crown,” debuting today on the streaming service, opens in the bleakness of post-World War II, with a respite provided by Elizabeth’s marriage to Philip Mountbatten (played with sexy swagger by Matt Smith of “Doctor Who”).

The bride’s expectation of helping her new husband and

his naval career is ended by the death of her father, King George VI, at 56. Elizabeth was 25 when the royal responsibility she believed to be decades away passed to her.

The drama follows her early years as a monarch in a changing world, along with her sister, Princess Margaret (Vanessa Kirby), and politi-

cal leaders Winston Churchill (John Lithgow) and Anthony Eden (Jeremy Northam).

Writer and executive producer Peter Morgan didn’t come to the topic cold: He wrote the 2006 film “The Queen,” which earned an Oscar for star Helen Mirren.

Morgan believes the royal family understands that “The

Crown” project was done with “some degree of respect.”

“These are people who are used to slander, cartoons, satire. These are not people who are used to being taken seriously. And whilst that might be a terrifying prospect, I think it is also the only worthwhile way of looking at our recent history,” Morgan said.
