NOTICE: Oregon Landscape Contractors Law (ORS 671) requires all businesses that advertise landscape contracting services be licensed with the Landscape Contractors Board. This 4-digit number assures the business has a bond, insurance and an associated individual contractor who has fulfilled the testing and experience requirements for licensure. For your protection call (503)378-5909 or use our web site: [www.lcb.state.or.us](http://www.lcb.state.or.us) to check license status before contracting with the business. Persons doing landscape maintenance do not require a LCB license.

Oregon state law requires anyone who contracts for construction work to be licensed with the Construction Contractors Board. An active license means the contractor is bonded and insured. INFORMAL REQUEST FOR QUOTES

Fernhill Community Water System is seeking quotes for a Water System Master Plan. The water system is located 6 miles east of Astoria Oregon in Clatsop County and has 99 water services. Water is purchased from the City of Astoria and the average gallons monthly is 390,000. It is estimated there is 4.5 miles of pipe that ranges from 6 inch to 2 inch. A map of the Water System is available upon request. Recently the Water System was awarded a grant from the State of Oregon Infrastructure Finance Authority. The deadline for project completion is December 31, 2017.

Scope of Project:  
1. A summary of the overall plan that includes the water quality and service goals, identified present and future Water System deficiency, the engineer's recommended alternative for achieving the goals and correcting the deficiencies, and the recommended implementation schedule and financing program for constructing improvements.  
2. A description of the existing water system which includes the service area, source(s) of supply, status of water rights, current status of drinking water quality and compliance with regulatory standards, maps or schematics of the water system showing size and location of facilities, estimates of water use, and operation and maintenance requirements.  
3. A description of water quality and level of service goals for the water system, considering, as appropriate, existing and future regulatory requirements, non-regularly water quality needs of water users, flow and pressure requirements, and capacity needs related to water use and fire flow needs.  
4. An estimate of the projected growth of the water system during the Water System Master Plan period and the impacts on the service area boundaries, water supply source(s) and availability, and customer water use.  
5. An engineering evaluation of the ability of the existing water system facilities to meet the water quality and level of service goals, identification of any existing water system deficiencies, and deficiency likely to develop within the Water System Master Plan period. The evaluation shall include the water supply source, water treatment, storage, distribution facilities, and operation and maintenance requirements. The evaluation shall also include a description of the water rights with a determination of additional water availability, and the impacts of present and probable future drinking water quality regulations.  
6. Identification of alternative engineering solutions, and associated capital and operation maintenance costs, to correct water system deficiencies and achieve system expansion to meet anticipated growth, including identification of available options for cooperative or coordinated water system improvements with other local water suppliers.  
7. A description of alternative to finance water system improvements including local financing assistance programs.  
8. A recommended water system improvement program including the recommended engineering alternative and associated costs, maps or schematics showing size and location of proposed facilities, the recommended financing alternative, and a recommended schedule for water system design and construction.  
9. If required as a condition of a water use permit issued by the Water Resources Department, the Water System Master Plan shall address the requirements of OAR 690-086-0120 (Water Management and Conservation Plans).

Quote Submissions:  
Quotes will be submitted to Pam Pearce, Board Chair, via email at [pampearce12@yahoo.com](mailto:pampearce12@yahoo.com) no later than April 30, 2017.
