

*A feast for the senses...*

Chuck  
**Gumpert Mixed Media**

**Chuck Gumpert's** layered and sophisticated style pushes the senses to experience color, form and shadow on a deeper level. His mixed media abstractions represent an escape into the kind of reality we experience in dreams. For the festival he will explore the equally dream-like world of fashion.

**Ann Cavanaugh** is drawn to the depth and complexity that are possible by layering and fusing glass into translucent images of amazing power. Her art reflects the colors and textures of the natural world she loves. A gifted teacher, Ann's demonstration will be a masterclass in fused glass.
