

# RICKENBACH CONSTRUCTION INCORPORATED

Rickenbach Construction was started by John Rickenbach in Astoria in 1965.

For over 50 years, Rickenbach Construction has worked to become one of the Pacific North Coast's foremost commercial general contractors including restoration, historical renovation, design/build, seismic, structural and other upgrades, custom commercial and residential construction.

Rickenbach Construction will effectively meet the challenge of keeping historical authenticity, assuring weather protection and structural stability, and maximizing the changing functionality of buildings in our community. We have completed projects in three Northwest Oregon Counties and Southwest Washington including numerous new buildings, additions, remodels and restorations.

As a family-owned business, Jared Rickenbach, president; Michelle Dieffenbach, architect; along with John and Diane Rickenbach, have established the company's reputation for honesty, dependability, teamwork, problem solving, quality craftsmanship, schedule and project management.

Rickenbach Construction, Inc., is committed to building your trust first.
