PKA Architects is exceptionally grateful to have had the opportunity to collaborate on this project with Columbia Memorial Hospital (CMH). At PKA, we are passionate about every aspect of medical architecture and our highly-trained experts work as a team to develop effective solutions for any healthcare project. This project with CMH was a meaningful example of teaming with staff, administration, patients, volunteers, and many others to create a unique healing environment for the patients of this hospital and the supporting community. We are so happy to see this great new service open up and look forward to partnering with the hospital in the future!
