

# Ocean Beach Hospital & Medical Clinics

## QUALITY HEALTHCARE CLOSE TO HOME

OBHMC provides its community a 24/7 Emergency Department staffed by trained emergency medicine physicians. As a Critical Access Hospital, OBHMC is licensed for 25 inpatient beds and boasts an active "Swing Bed" program – where patients needing a lower acuity care setting can rehabilitate from surgeries, hospital stays, and other healthcare events. Clinics, located in Ilwaco and Naselle, offer high quality primary care and specialty services and are accepting new patients. Our brand new Ocean Park clinic will open in 2017.

### Services provided:
