

# Giving Back

2017

## Making a difference in Pacific County

Pacific County is blessed to have a wide array of nonprofit organizations that help raise the quality of life in a place with fantastic attributes, but also many challenges. From health and human welfare, to arts and culture and from youth athletics to service groups, they all make a difference in our lives.

Giving Back is a celebration of those nonprofits and for what they do in our communities. Many of them are documented in this inaugural edition of a publication we plan to update as often as possible.

We are grateful to everyone connected to these nonprofits. We encourage

readers to support these organizations with your time and money. Most are constantly searching for additional volunteers.

Please also support this effort by buying the products and services provided by our advertisers. They are essential partners in this effort to shine a light on the good work performed by local charities and nonprofits.

We welcome suggested additions and corrections for future editions. Please send these to Andrew Renwick, PO Box 427, Long Beach, WA 98631 or [arenwick@chinookobserver.com](mailto:arenwick@chinookobserver.com).
