Portland artist Samyak Yamauchi brings a series of narrative paintings that speak of our relationships in a solo show titled "Constraint and Freedom." The constraint of a limited color scheme gives a structured starting place and an intuitive process gives an open-ended freedom. Christine Haberkorn, of the Long Beach Peninsula, presents a trunk show of statement jewelry created from bits and pieces of vintage adornments from the Victorian era through the 1950s that she has collected from around the globe. Also featuring musician Dylan Clodgo.

Dig into the 'LightBox Files'

ASTORIA — LightBox Photographic Gallery recognizes the Portland photographic community for their talent in the seventh annual "PDX 30 Exhibit." This group exhibit opens with an artists' reception 6 to 9 p.m. Saturday, April 14.

One image each from 30 photographers was chosen to be featured. This work stood out from the crowd and exhibits the vision and creativity of the photographer.

This year Portland Photographer Zeb Andrews served as juror. The majority of his week is spent immersed in photography while working at Blue Moon Camera and Machine in North Portland.

Also opening on this night is "The LightBox Files Exhibit." Entering its third year, the exhibit and collection honor the "complete photographer" by recognizing those that pursue the art of fine printing. On this night, all seven photographers will be featured with a series of prints on the walls and a collection in the drawers. The work will be featured in the viewing drawers for the 2018 calendar year.
