Hello, I'm **Tim**.

I am a Teller Interactive Machine. But **please do not call me a machine**. I am so much more. **I do everything a person can do**. I am very **futuristic**, but unlike some futuristic things, **I am secure, easy to use**, and the folks who pop up on my screen are not located somewhere else in the world; they are in Astoria. With a simple touch, you can talk with them...**LIVE**. And guess what? If you don't feel like chatting, **I am an ATM, too!**

See you soon! *Tim*
