I do believe we can make our own peace within our world. **It all starts with peace within ourselves.** But really, *All you need is Love.* Love thy neighbor and you will find peace.

Universe means one (uni) song (verse).
Imagine is a deep dive into how it could be if we let go of the ideas about ownership, narrow minded thinking and possessiveness...we don't really own anything...Nature is a mirror of this open minded thinking. When we take in the beauty through our senses, we are uplifted. It is a universal wealth to enjoy and share.
