

# The Astoria Ferry

## One of Oregon's Most Endangered Places.

The Astoria Ferry Group is working to preserve and return to service a unique piece of Columbia River history, so we can all share in the adventure and beauty of being out on the river.

Thanks to private donations and grants from Restore Oregon, Oregon Community Foundation, and Oregon State Historic Preservation Office, work is underway to save this historic vessel.

The restoration project provides educational opportunities and hands-on training for students in the Tongue Point Job Corps Seamanship program and the Historic Preservation Department at Clatsop Community College. All work is being accomplished in a manner to meet US Coast Guard specifications for certification to carry passengers. Meanwhile the Ferry is available for private dockside event rentals.

The Ferry is home-ported at historic Pier 39. Open vessel days will be announced. If you drop by and see crew aboard, you're welcome to call "Ahoy!" Bring your classroom to the Ferry for a fun and exciting history lesson.

Thanks to all the marvelous Astoria Ferry supporters and volunteers (past, current and future) who share the excitement of having the Astoria Ferry "Tourist No. 2" back on the Astoria waterfront where she belongs!
