LATSOP HEALTH & LIFE
INSURANCE AGENCY

Open Enrollment for
HealthCare.gov
runs through
December 15th

This is the time to make changes to your existing, individual medical insurance plan or enroll in a new one. Clatsop Health & Life Insurance Agency is ready to assist.

Individuals and households with an adjusted gross income of up to 400% of the Federal Poverty Level may be eligible for a federal premium subsidy to offset the cost of their medical insurance. Those who are not subsidy eligible can still enroll and there are no coverage restrictions for those with pre-existing medical conditions.

Your agents at Clatsop Health & Life are well versed in all medical insurance plans available in Clatsop County.

Whether you're new to The Health Insurance Marketplace or already have an account, we can help you navigate your medical plan options and advise you on how to properly report your income so you can best utilize your premium subsidy.

We are a local agency

Going with a local agent who's familiar with Clatsop County doctors and medical facilities insures you're getting the plan that works best with your medical care providers and you'll always have someone to talk to, face to face, should any questions or concerns arise.

Call Candi Vanderburg or Hamil Brown at 503-325-0154 to set an appointment.

There's no obligation and no additional charge for our services.
