COMET DIFFERENT FOUND

Miss Mitchell's Comet

On the night of October 1, 1847, Maria Mitchell looked through her rooftop telescope and saw a spot of _____ she had never seen before. She showed her dad and they both believed she had _____ a new comet.

They believed it was a _____ because of the way it moved, which was _____ from the paths of the stars and planets.

Maria tracked this little spot of light's _____ and then asked her friend Professor Bond what he thought. He watched it for a couple of nights and _____ that this was a comet.

Standards Link: Reading Comprehension: Use context clues to determine the meaning of words.

How many differences can you find between these two pictures?

Whales and Stars

Maria lived on Nantucket island, off the coast of Massachusetts. At that time, whaling was the way people made their living on this island. The sailors who hunted whales used the stars at night to guide their ships. How many stars do you see?

A Love of Learning

Maria never went to school to be an astronomer. Yet she learned how to read the skies and solve math problems that described the movements of stars, planets, comets, moons and asteroids. How did she learn this? Hold this page up to a mirror to read the answer.

She watched the skies nearly every night and made notes about what she saw.

Harvard Help

Maria helped her father with star observations for the United States Coast Survey. From their rooftop, they took measurements to help sailors use the stars to navigate at sea.

Through the work for the Coast Survey, Maria became friends with Professor William Bond at Harvard University. In those days, women could not go to Harvard. But Professor Bond helped Maria with her understanding of astronomy on his own.

A University for Women

In 1861, a university for women was formed in Poughkeepsie, New York. Maria Mitchell's reputation led to her being one of the first professors of astronomy there. While she wasn't able to go to college for astronomy, now she could teach younger women who shared her curiosity and love of watching the night sky.

Family Riddle

Maria Mitchell was related to one of the Founding Fathers of the United States. Circle every other letter to find out who.

CB AELNSJTACMUIVNYFBRHAPNVKQLSIUN
 B _____

Extra! Extra!

Constellation Dot-to-Dot

On one page of the newspaper, find and circle the letters that spell the word **constellation**. Connect the circled letters to make a design. Decorate your design!

Standards Link: Spell grade-level words correctly.

FROM THE LESSON LIBRARY

Women in the News

For women growing up in the 1800s, life didn't offer as many opportunities as today. Look through today's newspaper and make a list of the women mentioned. Next to each woman's name, write why she is mentioned.

Standards Link: Research: Use the newspaper to locate information.

What do you get by mixing a guppy with a comet?

ANSWER: A starfish.
