STATEMENT OF CHANGES IN ACTIVITIES AND SOURCES OF FINANCING **			
Our strategic plan has prioritized specific areas that are essential for preparing students for school and life outside of school. These core beliefs help to dictate many of the 2019-2020 budget programs and staff levels. Two years ago our student enrollment increased significantly and it has held steady during the 2018-2019 school year, the district will continue to monitor our enrollment and maintain viable class sizes. The district's voters passed a \$70 million dollar general obligation bond in November of 2018. Construction will begin in the summer of 2019.

STATEMENT OF CHANGES IN ACTIVITIES AND SOURCES OF FINANCING **			
Proposed General Fund expenditures in 2019-20 totaling \$57,454,194 for 2019-20 represent an increase of \$3.9 million over the prior year's budget. As the state school funds increase, so do the transfers which flow through to our districts as a result. The increase in Supporting Services is primarily due to contractual increases in wages and associated payroll costs, especially PERs. For fiscal year 2019-20, the proposed budget for the Special Revenue Fund of the Northwest Regional ESU is \$77,015,989. This \$10.7 million increase is related to potential grants and contracts that will become available for application if the legislature passes and then voters approve a revenue package specifically for PK-12 education. This budget, with a \$5.1 million increase in state revenue and corresponding expenditures for specific programs, positions the ESU to quickly apply for and then spend resources to support initiatives important to our region. About 47% of revenue in our special revenue funds is generated with state contracts and grants, primarily through ODE. The additional \$4.5 million increase in Local Revenue represents an increase in purchases of services by component districts such as early childhood evaluations, NW Outdoor Science School and our Behavior Classrooms. The District allocations are transferred from the General Fund to each district's individual Agency fund. Districts then pay for ESD services accounted for in the Special Revenue Funds. The Enterprise Fund represents the operations that are financed and operated in a manner similar to private business enterprises where the stated intention is that the costs of providing goods or services to the component school districts or general public on a continuing basis are financed or recovered primarily through user charges. The Agency Funds are used to account for resources held by Northwest Regional ESU as custodian or fiscal agent for our component school districts or other organizations. The purpose for the agency fund must be to provide services to the achievement of educational services in support of school districts in their mission to educate all students. The increase in Transfers in represents ESD allocations for the two largest component districts. Their entire allocation will be transferred to their individual agency accounts from the General Fund, giving each district the option of buying ESD services or receiving a cash distribution. The 2019-20 Proposed Budget for the Northwest Regional ESU, totaling \$192,154,882 reflects the ESU's strategic plan with the many needs of our component districts. This budget will provide the financial resources to operate all of our existing programs and fund our initiatives. The funding plan provides an estimated ending fund balance of \$3 million. The estimated fund balance is a result of the guidelines established by the Board of Directors.
