

OBITUARIES

Mary 'Marty' E. Langley

Astoria
 Dec. 26, 1941 — April 20, 2019

Mary "Marty" E. Langley passed away peacefully the morning of April 20, 2019, at the City of Hope in Duarte, California.

Marty was born Dec. 26, 1941, in Glendale, California, to parents Margaret (Wheeler) and Carl Langley.

Marty spent a few of her early years in Oklahoma, and attended elementary school in East Los Angeles. After moving to Riverside, California, she attended Chema Junior High School, and graduated from Ramona High School in 1959.

During these school years, she was known for her kindness, as well as a love of the performing arts. She made lifelong friends as part of Ramona's theater department, and as part of the Girl Scouts, which involved her mom as a troop leader.

Marty attended Riverside Community College before transferring to San Diego State University, from which she graduated in 1963. She obtained her teaching credential from the University of California, Riverside, and began teaching English at Hemet High School. After teaching for five years, she left to travel.

Upon returning, Marty took over her mom's job as accounts manager at A to Z Printing in Riverside. In 1972, she married, and over the next six years she and her husband had two daughters.

Marty returned to Hemet High School in 1985 to teach both mathematics and English, later earning her master's degree from Chapman University. She enriched the lives of her students and colleagues, who have very fond memories of her.

During much of Marty's teaching career she was Amnesty International USA's specialist leading the Turkey Coordinating Group, while also being a longtime member of the Riverside local group. This resulted in her attending many international meetings. She also helped her teacher husband, George "Mick" Hague, with all his environmental work with the Sierra Club.

As much dedication as Marty put toward her students and volunteering, she gave even more to her family, ensuring both her daughters and husband were loved and cared for.

In 2007, Marty and her husband retired, allowing her to spend time reading, writing, working as the newsletter editor of the Hemet/San Jacinto area California Retired Teachers Association (CalRTA) and con-

tinuing to help those in need.

She especially enjoyed being a 10-year resident of Astoria, where she watched and tracked many of the ships' movements as they passed by on the river. She was able to say where the ships were from, and where they were heading, as well as their cargo.

Mary Langley

Marty Langley

Astoria was her sanctuary and place to enjoy life. It was the idea "we ain't quaint" that endeared Astoria to her. Our trolley, with its wonderful volunteers, was very special to her, and each year she would purchase one of its shirts to proudly wear.

Marty took many great photographs of Astoria and activity on the Columbia River. Almost every few weeks she would share them, along with a wonderful email, about the happenings in town. She marveled at how the people of Astoria would stand up to protect our beautiful city, and oppose those who would cash in, to the detriment of what makes us so special.

She appreciated very much the personal and professional care she received at the Astoria cancer treatment center, which allowed her to stay in her beloved Astoria as long as possible. She would sometimes say that she was able to move to Oregon because her husband was born in Astoria, and his grandmother was married in Astoria over 100 years ago.

Marty is survived by her loving husband, George "Mick" Hague, and their two wonderful daughters, Micaela Hague and Maria Riemer. She is also survived by many relatives, friends and colleagues, who will greatly miss her compassion, dedication and unique sense of humor.

As Emile Zola wrote, and Marty often shared, "If you ask why I came into this world, I will tell you. I came to live out loud." She not only accomplished this for herself, she inspired others to do the same.

There was a celebration of Marty's life in April, and her funeral was private.

A teacher affects eternity, and we will never know where Marty's influence will stop. Please consider continuing her influence by donating to CalRTA's scholarship fund for Hemet and San Jacinto high school students. Make a check payable to the San Jacinto Mountains Scholarship Foundation, and mail it to Jeannette Goar, 5339 Jasper Lane, Riverside, CA., 92506. Let them know it is to honor Marty Langley.

Calvin Maurice Brown

Astoria
 1934 — 2019

On July 26, 2019, Calvin Maurice Brown, 85, passed away after a long battle with Lewy body dementia. Calvin was born in Astoria in 1934. He was the son of Jue-Shee and Kee Wong-Brown. He worked in the canneries as a child.

He joined the Air Force, and proudly served across Europe during the Korean War.

Calvin went on to graduate from Oregon State University in electrical engineering. He worked at the Bonneville Power Administration for over 30 years, and then retired and moved back to Astoria.

His hobbies were numerous. He was a private pilot, and enjoyed fishing and hunting, but his true passion was spending time with his family and friends. He was very generous and always willing to assist his family and his friends. Coffee, good food and a hyper degree of safety were the three essentials to his everyday life.

He was proud of his Chinese heritage, and was instrumental in helping design and build a park honoring the Chinese community's contributions in the Pacific Northwest.

The park, known as the Garden of Surging Waves, opened in Astoria in May 2014.

Calvin is survived by his wife of 45 years, Agnes Brown. His family includes his son, Craig Brown, daughter-in-law, Holly Brown, son, Kirk Brown, and daughter, Kimi Wong. Surviving siblings include Richard Wong, Fred Brown, Thomas Wong, George Mendoza and Mabel Mendoza, and sisters-in-law, Deborah Brown and Marilyn Brown. Calvin has five grandchildren, Haydn Doggett, Gunnar Doggett, Clifford Brown, Gabrielle Brown and Jordan Brown.

Calvin was preceded in death by his mother, Jue-Shee Brown-Wong; his father, Kee Brown-Wong; brothers, Yen Wong and Phillip Brown; and sisters, Betty Wong, Marcel Wong and Dorothy Brown.

A memorial service is being held on Aug. 9, 2019, at 11 a.m., at Hughes-Ransom Mortuary, 576 12th St. in Astoria, Oregon.

A special thank you to the staff of Laurel Parc Brightway Memory Care facility.

Messages of condolence may be sent at www.hughes-ransom.com

States are challenging the Trump administration on fuel economy penalties.

Several states sue over fuel economy penalties

Oregon among the critics

By **DON THOMPSON**
Associated Press

SACRAMENTO, Calif. — A coalition of states sued the Trump administration on Friday for the second time to block a planned reduction in the penalties automakers pay when they fail to meet fuel economy standards.

Twelve states — including Oregon and Washington state — and the District of Columbia sued the National Highway Traffic Safety Administration for replacing an Obama-era regulation that imposed a penalty of \$14 for every tenth of a mile-per-gallon that an automaker falls below the standards.

The lawsuit came a week after four major automakers announced a deal with California to toughen standards for gas mileage and greenhouse gas emissions. The agreement involving Ford, BMW, Honda and Volkswagen bypasses the Trump

administration's push to relax mileage standards nationwide.

The new federal rule would keep the penalty at \$5.50, where it has been since the mid-1970s.

The legal challenge, led by the attorneys general in California and New York, argues that the new rule would keep the penalty far below the inflation-adjusted rate required by a 2015 law.

The new Trump rule says the 2015 law doesn't apply to the mileage penalties, and if it did, nearly tripling the civil penalty rate would have a negative economic impact.

The U.S. Department of Transportation, which includes the highway safety administration, said it expects the Trump penalty would reduce the future burden on the industry and consumers by as much as \$1 billion a year.

The states sued in the 2nd U.S. Circuit Court of Appeals in Manhattan. The same court last year decided the administration could not delay the penalty increase.

California Attorney

General Xavier Becerra said in a statement that the new Trump rule "seeks to make these penalties meaningless."

"We'll take on this latest wrong-headed maneuver with the same vigor that defeated the administration's first attempt at backsliding," he said.

The lawsuit contends the traffic safety administration decision was based on inaccurate assumptions on the economic impact of the increased penalties.

New York officials previously estimated the higher penalties would trim carbon emissions and save consumers on average \$1,650 annually in fuel costs.

"Without strong penalties for violating these fuel efficiency standards, consumers, our economy, and our environment all remain in danger," New York Attorney General Letitia James said in a statement.

Joining in the lawsuit were the attorneys general of Connecticut, Delaware, Illinois, Maryland, Massachusetts, New Jersey, Rhode Island and Vermont.
