

Save the Salmon

Save the Orcas

“Fish hatcheries have become an important tool in restoring & conserving the state’s wild, naturally-spawning salmon and steelhead populations.”
-WDFW

“Contributions of hatchery salmon & steelhead fisheries to the state’s (Washington) economy is just under \$70 million dollars.”
-WDFW

Hatcheries play a major role in wild fish & Orca recovery while contributing to the Region’s economy.

Get Involved. Support Sea Resources & SAVE OUR SALMON!

- **Volunteers are needed!** What is your passion? We need volunteers for all program areas including fish production, trail & grounds maintenance, construction, greenhouse, history, educational displays, signage & leading tours
- **Donate.** The Pacific Community Foundation “Abundant Salmon Futures Fund” supports Sea Resources, Inc efforts. Our website has a direct link. Click on DONATE.
- **Annual Membership.** Yearly membership supports ongoing efforts to restore & maintain our important mission of returning Salmon to the ocean.
- **Come to a meeting.** Our monthly board meetings are held the 3rd Monday of the month. Check the website for more information.
- **Spread the word!** We all need to work together to enhance Salmon in the Lower Columbia River.
