

# Thank you for your patience

The recent storm that blanketed our region with thick layers of ice and snow caused extensive damage to trees and power lines.

As the storm took shape, more than 400 field personnel jumped into action working 24/7 with assistance from Tillamook PUD, Rocky Mountain Power, MidAmerican Energy and NV Energy. Crews worked around the clock to make repairs and get your power back on as swiftly and safely as possible.

Delivering safe, reliable, affordable power is our highest priority. Thank you for your patience and your trust. It's a privilege to serve you.
