

NEW EXHIBITS COMING THIS SUMMER

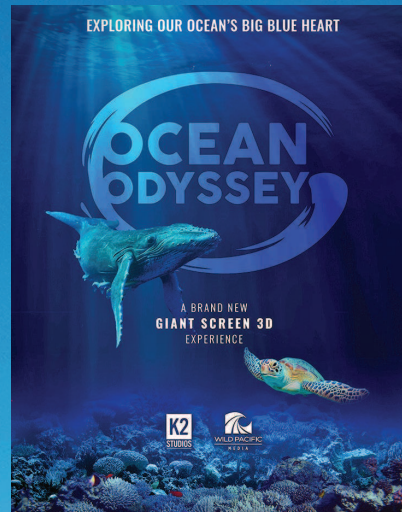

OPENING SUMMER 2021

EXPERIENCE Shipwrecks!

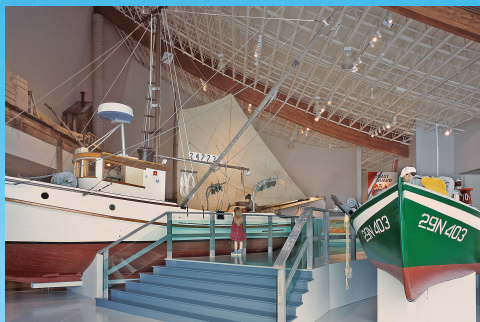

Imagine the terror of feeling the ship shudder as it runs aground on an unseen sandbar while towering waves crash over the hull and fierce winds whip around you. The twisting and pounding of the ship's skeleton with each wave begins to tear her apart under your feet. The doomed ship groans and cracks loudly as you climb with the crew into the rigging, and the broken hull spills its contents into the sea.

OPENING JUNE 1, 2021

Ocean Odyssey in 3D

Narrated by Dr. Sylvia Earle, join us as we follow humpback whales on their 2,000 mile migration from the Great Barrier Reef to the feeding grounds of Antarctica. They will follow the flow of an undersea highway – part of a global network of ocean currents crucial to life at sea.
