Warrenton, Knappa open summer baseball with wins

The Astorian

One day after the close of the “winter” sports season, the summer baseball season opened for business Monday at Warrenton, where the Warriors defeated Seaside 15-5 in a Junior Baseball contest at Huddleston Field.

Game 2 of the scheduled doubleheader was suspended after two innings, with the Warriors leading 12-7.

Warrenton pitchers Dylan Atwood, Dawson Little and Cam Daniels combined on a three-hitter, with Tanner Kraushaar collecting two doubles for the Gulls.

Atwood had two hits for Warrenton, while Little had a double, Nate Streibeck added a triple, and Josh Earls scored four runs.

Warrenton also won Tuesday’s “B” contest at Seaside, 13-7. The B games feature primarily younger players from each school.

Odie Wilson and Little each had a triple for the Warriors. Warrenton lost a 13-7

decision Thursday at Neah-Kah-Nie. Game 2 was called after two innings because of darkness.

Warrenton pitchers walked or hit 14 batters, while the Warriors committed five errors in the field.

Knappa pounds Clatskanie

Two days after finishing the basketball season, Knappa opened the summer Junior Baseball season with a doubleheader sweep Monday at Clatskanie, 12-1 and 14-3.

Addison Piettila got the victory on the mound in Game 1, while Logan Morrill was the winner in Game 2.

At the plate, the Loggers had standout games from Ash Baldwin and Mark Miller in the opener, and Jude Miller, Tanner Jackson and Piettila in Game 2.

Knappa was scheduled to play Thursday at Seaside.

Astoria Ford swept a Thursday doubleheader with Clatskanie, 15-5 and 6-4.

Astoria hosts youth football camp

The Astorian

The Astoria High School football coaching staff will be conducting a three-day youth camp, Aug. 10 through Aug. 12, for any student entering kindergarten through eighth grade in the 2021-22 school year.

The camp will be held at CMH Field from 5 to 6:30 p.m. each day.

Cost of the camp is \$20 per individual or \$25 per family. Pre-registration is preferred. To pre-register, fill out an authorization form at ahs.astoria.k12.or.us/athletics/fall_sports/football, and bring it to Astoria High School, 1001 W. Marine Drive.

Camp instruction will include individ-

ual technique of all offensive, defensive and special team positions, recommended nutritional training, off-season and in-season training and the importance of goal setting and team building.

Interested students who may have a financial hardship should contact coach Howard Rub at 503-298-9419.

If pre-registration is not possible, campers may register the day of the camp by arriving at CMH Field 30 minutes prior to the designated start time. Players should wear a cloth short and T-shirt and a non-metal cleated pair of shoes. For more information, contact Rub via phone or email at hbrub@astoria.k12.or.us.

Group of Northwest lawmakers seek progress on Columbia River Treaty

Associated Press

SPOKANE — A bipartisan group of 21 Northwest lawmakers called on President Joe Biden to prioritize a long-running effort to renegotiate a 60-year-old treaty that governs how the United States and Canada share the waters of the Columbia River basin.

In a Tuesday letter to Biden, U.S. Rep. Cathy McMorris Rodgers, a Washington Republican, U.S. Sen. Patty Murray, a Washington Democrat, and U.S. Rep. Peter DeFazio, an Oregon Democrat, led the group urging the president to update the Columbia River Treaty.

The Spokesman-Review reported efforts to revise the treaty, which was signed in 1961, began in 2013 amid concerns over salmon runs, flood risk and electricity the U.S. sends to Canada under the accord.

“Modernizing this treaty is critically important to protecting our region from flood control risks and ensuring we can continue to lead with clean, renewable, reliable, and affordable hydropower,” McMorris Rodgers said in a statement.

The treaty, which took more than 20 years to negotiate, came together after a 1948 flood washed away what once was Oregon’s second-biggest city, Vanport. It provided for the construction of one dam in Montana and three in British Columbia, completed between 1968 and 1973, that together more than doubled the amount of reservoir storage in the basin, providing benefits for both flood prevention and generating power.

Most of the treaty’s provisions don’t

have an expiration date, but half a century after its signing, changing conditions spurred an effort to modernize it. The Bonneville Power Administration and the U.S. Army Corps of Engineers — which together form the U.S. entity responsible for the agreement — began a review of the deal in 2011 and recommended a series of changes to the State Department in 2013.

The recommendations included letting more water flow through the dams in spring and summer to improve fish passage, decreasing the treaty’s impact on tribal resources and updating flood management plans. The power administration and Army Corps of Engineers also recommended changing a provision known as “the Canadian Entitlement,” which requires the U.S. to send cash and half of power generated downstream to Canada in exchange for the water resources.

The power administration and Army Corps of Engineers have estimated the value of the Canadian Entitlement to be between \$229 million and \$335 million a year, contending the treaty gives the U.S. a raw deal. Canadian negotiators have argued the entitlement is fair. Either country can terminate the treaty with 10 years’ notice, but neither has done so.

The letter was signed by lawmakers from Washington state, Oregon, Idaho and Montana.

A State Department spokesperson said Friday the agency doesn’t comment on congressional correspondence but promised to consult with lawmakers on the treaty.

The White House did not respond to a request for comment.

OBITUARIES

Jane ‘Irene’ Jessen

Astoria

April 30, 1946 — June 3, 2021

Jane “Irene” Jessen passed away on June 3, 2021, at the age of 75.

She was born, in Astoria, to Peter Frederick Jessen and Hulda Maria (Simonson) Jessen, on April 30, 1946.

Irene grew up in the Olney community with her two sisters and three brothers, where she attended Olney Elementary School and Astoria High School, graduating in 1964. Irene enjoyed 4-H, volleyball, berry and apple picking and living on the farm while growing up.

When Irene was 18, she was attacked by an otter in Youngs River while swimming with friends. It is said that her screams could be heard above the noise of the tractor baling hay in the nearby field.

She went on to college at the University of Oregon for one year. Shortly thereafter, she joined her sister, Alice, and brother-in-law, Jerry, in Illinois. Irene spent her time taking care of her niece, Christine, and nephew, Carl, even bringing Carl to his first day of school.

In 1974, Irene moved to Rockford, Illinois, where she bought her house and biked to work every day. She worked for Woodward Governor, a manufacturer of electronic components, for two years as a technician, where the work dress requirements were jeans for men and culottes for women.

This did not sit well with her, and she went on to work at Barber-Colman, Rockford’s leading manufacturer of electronic components, where she remained until she retired in 2011.

One of the pastimes Irene invented was the “Finders Club.” She and her friends would go for walks and collect items found on the ground. They collected all sorts of things as well as money for many years.

Irene went to Rock Valley College in 1995, attending at night while working. Because the distance to school was farther than she could comfortably bike, she obtained her driver’s license. Irene’s classes varied, but the one she enjoyed

the most was writing, where she could express her thoughts on paper.

Irene never missed a special occasion, and always sent cards and letters to family and friends. She made her own stationery, and it was often adorned with four-leaf clovers that she had collected.

Always wanting to help others, she volunteered at Singles Volunteer Network in Rockford, where she met her fiancé, Gale Downer. They became engaged in 2002, and Irene moved to Roscoe, Illinois.

Gale and Irene never missed the chance to let each other know how they felt about each other, always leaving love notes behind when one or the other had to leave the house.

Seeking warmer weather, Gale and Irene bought a house in Yuma, Arizona, in the Country Roads community. Bingo was a favorite activity that Irene enjoyed, and when asked to play bingo elsewhere, her reply was “No, that’s not bingo, Yuma bingo is the best!” She also joined the writing club, where she continued to write stories of her family and life experiences.

When talking to Irene on the phone, her greeting was always a hello, and the sound of her infectious giggle. Irene was always so special, gracious and kind. She will be missed by many.

Irene is survived by two brothers and one sister, Richard (Junko) Jessen, of Japan, Alice (Jerry) Campbell, of Berthoud, Colorado, and Edward (Judy) Jessen, of Astoria; nieces, Christine Lebeda, of Loveland, Colorado, Andrea (Jayson) Holmstedt, of Astoria, and Deborah Luty, of Astoria; great-nieces and nephews, Matthew Lebeda, of Colorado, Amanda Lebeda, of Colorado, Jonathan Luty, of Washington, Jessen Luty, of Oregon, Dodger Holmstedt, of Oregon, and Nayomi Holmstedt, of Oregon; and a great-great-nephew, Finley Shearer, of Oregon.

A private ceremony will be held.

Caldwell’s Luce-Layton Mortuary of Astoria is in charge of the arrangements. An online guest book may be signed at caldwellsmortuary.com

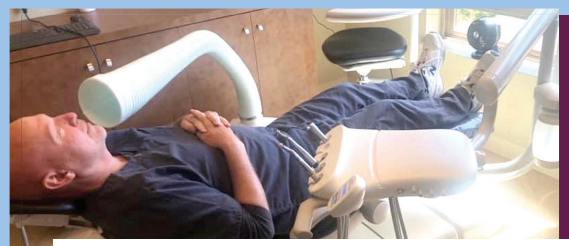

Jane 'Irene' Jessen

We've gone ABOVE & BEYOND to make sure you are COMFORTABLE & SAFE at your next dental visit.

We have Infection Control Procedures in place for your safety & ours.

** In addition to a filtration system, external vacuum systems, air purifiers, and foggers, we have added negative pressure to all operatories. The safety and comfort of our patients has always been a priority at Klemp Family Dentistry. We are very proud of these innovations. Thank you for your continued confidence in all of us.

Excellence in challenging conditions. ★★★★★
Diane G.

I saw the highest standard of health safety practices in effect during my hygienist appointment today—much higher precautions than I'd seen in a local hospital when having tests last month. The new sanitation equipment and attention to patient safety at Klemp Family Dentistry is in keeping with a dental practice I consider cutting edge with respect to all my dental needs. It's wonderful having a world class dental practice here at the coast, one where I can have procedures performed for which I used to have to travel to a specialist in Portland. I have been a patient of several local dentists in the past, but none had the skill and, more importantly, the attention to patient comfort that Dr. Klemp provides.

Thank you Diamond Heating and JJ Electric Service LLC for completing our negative pressure system.
