SERVICE TECHNICIAN

Automotive technicians' duties revolve around troubleshooting and repair of cars and trucks. Technicians comb vehicles for mechanical problems and test systems for malfunctions. They put together reports of problem spots for vehicle' owners so that service advisors can prepare estimates of parts and labor as needed for repair. Once they have the client's approval, technicians make repairs on components ranging from fuel injectors to mufflers. Technicians also handle routine maintenance to protect cars from more extensive repairs down the road. They change oil and oil filters, rotate tires, and tune-up engines.
