ARIES (March 21-April 19). What you love will come alive in your world, influencing how you behave, your future plans and the company you keep. You'll feel a real connection to a new aspect of your interest, or new interest entirely.

TAURUS (April 20-May 20). When you have someone to share a pleasure with, the joy will double up on you. Meet with people who think like you and appreciate the same things.

GEMINI (May 21-June 21). Steer clear of anything involving justice. Unless you are paid to judge, it will not serve you to offer advice. You can offer support, love and a safe place to land without offering an opinion.

CANCER (June 22-July 22). Most people are sophisticated enough to know how to talk and behave in various settings with you. There are those who will break the rules. Your gracious handling will not be appreciated in the moment, but in time, they'll get it.

LEO (July 23-Aug. 22). Money can't buy intelligence, and dollars don't add up to savvy. But what money can buy is experiences to teach the willing student. You'll bring astute awareness to the classroom of life.

VIRGO (Aug. 23-Sept. 22). Just as parents chasten the ones they love most, it seems you are being scolded by the fates. You can take this as proof positive that you are a beloved child of the universe.

LIBRA (Sept. 23-Oct. 23). This used to be your adventure time. That you've gotten used to it doesn't mean it's time for a new adventure, but a deeper one is certainly called for.
