COMMUNICARE STUDENTS GRANT

$683,000

TO OREGON NONPROFITS

CommuniCare was started by Harold and Arlene Schnitzer 25 years ago with the dream of empowering teens to become active citizens and has grown to serve sixty student groups under the leadership of their son, Jordan Schnitzer. Over the course of the school year, students learn about important community issues, evaluate nonprofits doing amazing work, and decide which to fund. It has been our great privilege to work alongside inspiring teachers and students from the North Coast to Eastern Oregon. The passion and commitment of these young people should give each of us tremendous hope for the future.

"The grantmaking process is very special to me because it's a chance to meet the people trying to improve our community. I really enjoy getting to know these organizations and their goals. I can't believe how lucky the participants in CommuniCare are to get to make such a huge difference as young people. It's a gift to us and our futures!"

GEORGIA
Astoria High School

"The most rewarding part of CommuniCare is interviewing the nonprofits! It's amazing to hear where our funds are going every year and I have an entirely new perspective on our community. The process has shown me the heart-wrenching realities our community is facing and how nonprofits can truly save someone's life."
