How One Doctor Successfully Treats Pneumonia

"In treating pneumonia," says Dr. W. J. Smith of Sanders, Ala., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While of course, I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice and have yet failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife, for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." For sale by all good dealers.

Ill Health is More Expensive Than Any Cure

resulting from neglected colds, and spending fortunes vainly trying to regain lost health. Could every sufferer but undo the past and cure that first neglected cold, all this sorrow, pain, anxiety and expense could have been avoided. Chamberlain's Cough Remedy is famous for its cures and can be depended upon. Use it and the more serious diseases may be avoided. For sale by all good dealers.

Exercises were opened by a mixed quartet of young voices rendering with much effectiveness the anthem, "Around the World the Ribbon White is Twined," followed by prayer by the pastor, responsive reading, solo by

Water Works for the Country

"Hello, Jim, when did you put in a water-works system?"

"About a month ago, Charley, and I never looked before for how much convenience and real enjoyment I've been enjoying all this time."

"I sent for a free book I saw advertised, called 'How I Solved the Water Supply Problem,' and it opened my eyes, I tell you."

"It convinced me that I could have running water on my place as easily as town people, so I ordered an outfit, set it up myself, and it works to perfection. It is called the

Leader Water Supply System

"I put in a bathroom, have hot and cold water in the kitchen and laundry and you see what a strong pressure I have in this house."

"How do you get that pressure, Jim?"

"It's very simple, Charley—compressed air. You see, my windmill pumps water into a steel tank in my basement (not the old-fashioned clumsy, outdoor gravity tank). The air in this tank, being elastic, is compressed into the upper half as the water enters. This compressed air then gives a pressure which forces the water through the pipes all over the house, the garden and the barn."

"I can wash my buggies, clean out the stables, water the gardens, and pipe water to the stock so easily, it seems almost like a dream."

"Then I have absolute fire protection, and that's worth a great deal on the farm you know."

"Do you want a copy of this book, Mr. Rader?"

"It will show you how easily this system can be applied to your own farm, and what a time and labor saver it will prove, at moderate cost."

"The title of the book is 'How I Solved the Water Supply Problem,' and it is only 22¢ to any one interested. Better write now, while the subject is fresh in your mind. You'll surely enjoy reading it. Address

Mrs. Davis, recitation by Mrs. Hunt and closing with the quartet singing "Tell Mother I'll Be There." Ole Spaulding carrying the solo. The W. C. T. U. feels grateful for the assistance given them in these pleasing and helpful exercises.
