### CHURCH NOTICES

**A Popular Course.**  
The series of lectures in the Methodist Episcopal Church is being largely attended. Dr. Ford's terse way of presenting the truth to "Men of Modern Minds" is drawing men to see the truth in a new light.

The lecture on "The Tragedy of Doom" was a masterpiece. The story of Belshazzar's splendid court and banquet, with its attending doom as portrayed by the handwriting on the wall, was given in a word picture, most pleasing and convincing.

A man is a bundle of habits and happy is he who's habits are his friends. Happy the man who sees in a daily life which is "In tune with the Infinite," an escape from the inevitable doom of sin.

Belshazzar desecrated the vessels used for God's service in his temple. His own wicked acts spells out defeat and doom for his entire kingdom. So also in our lives, the man who prepares for and meets the issues as they come, has no fear which is known by the man who forgets God, His house and His service.

Let us have more modern truth, dressed in a new coat.

Dr. Ford gave some fine bouquets to our high school and especially the contestants for our debating team. —C. W. E.

#### Unitarian

Regular morning service at the Unitarian church at 11 a. m., Sunday school at 9:45. Vesper service at 3 p. m.

Everybody is welcome to both the Sunday school and preaching services.

Next Sunday morning service will begin with singing by the Sunday school children and a five minute sermon to the children on "The Leadership of Jesus."

Topic of morning sermon "Little Things." The five o'clock service will be in charge of the Vesper union. The committee appointed last Sunday will choose a leader and arrange the order of service.

#### For Eczema, Tetter and Salt Rheum

The intense itching characteristic of these ailments is almost instantly allayed by Chamberlain's Salve. Many severe cases have been cured by it. For sale by all good dealers.\*

## Water Works for the Country

"Hello, Jim, when did you put in a water-works system?"  
"About a month ago, Charley, and I never realized before how much convenience and real enjoyment I've been missing all this time."  
"I sent for a free book I saw advertised," called "How I Solved the Water Supply Problem," and it opened my eyes. I tell you, it convinced me that I could have running water on my place as easily as town people, so I ordered an outfit, set it up myself, and it works to perfection. It is called the

## Leader Water Supply System

"I put in a bathroom, have hot and cold water in the kitchen and laundry and you see what a strong pressure I have in this place."  
"How do you get that pressure, Jim?"

"It's very simple, Charley—compressed air. You see, my windmill pumps water into a steel tank in my basement (not the old-fashioned clumsy, outdoor gravity tank). The air in this tank, being elastic, is compressed into the upper half as the water enters. This compressed air then gives a pressure which forces the water through the pipes all over the house, the garden and the barn."

"I can wash my buggies, clean out the stables, water the gardens, and pipe water to the stock so easily, it seems almost like a dream."

"Then I have absolute fire protection, and that's worth a great deal on the farm you know."

"Do you want a copy of this book, Mr. Reader?"  
"It will show you how easily this system can be applied to your place and labor saver it will prove, at moderate cost."

The title of the book is "How I Solved the Water Supply Problem," and we send it FREE to any one interested. Better write now, while the subject is fresh in your mind. You'll surely enjoy reading it. Address

#### Upper Valley Lands.

I want more of them to sell. Every property excepting two that I have undertaken to sell, and that was listed with me, I have sold. My work is entirely in the Upper Valley. I believe in it and am personally interested in its settlement and in the well doing of my clients. This has been the basis of my success. At fair prices there will be activity and I believe holders of large tracts should let go of at least part of their holdings, because the country can't progress without people and people won't come unless they can buy.

W. H. MARRHALL.

#### How One Doctor Successfully Treats Pneumonia

"In treating pneumonia," says Dr. W. J. Smith of Sanders, Ala., "the only remedy I use for the lungs is Chamberlain's Cough Remedy. While of course, I would treat other symptoms with different medicines, I have used this remedy many times in my medical practice and have yet failed to find a case where it has not controlled the trouble. I have used it myself, as has also my wife, for coughs and colds repeatedly, and I most willingly and cheerfully recommend it as superior to any other cough remedy to my knowledge." For sale by all good dealers.\*

#### Real Estate Bulletin

\$6500. Twenty acres on the East side in Pine Grove district, close to school, store, church and Mt. Hood Ry. station. Six acres of this is strictly first class two and three year old trees, Spits, Newtowns and Wagners. The balance of the tract is uncleared and every foot the very best. This has a fine slope and is easily cleared. When cleared and planted will sell for at least \$12000.

\$4750. Ten acres one mile out. Eight acres in trees, one acre of which is in full bearing, balance are from one to five years. Spits, Newtowns and Arkansas Blacks. One acre of berries between trees. 100 Rhubarb plants. One acre of pasture with running water. Five inches water. Extra good slope and soil.

\$10,000. Ten acres on the West side, close to school, store and church. Six acres in four year old trees in perfect condition, and two acres of three year olds, two acres of clover and home grounds. Good house, barn, tools and free water. Six acres of berries between trees. Terms, \$3000 down.
