Opportunity

is no longer bold, either in front or behind, but it might be as well if you don’t see and get your books in. If you are blind and deaf to the fact that you are living in a world where there are always more great opportunities than there are great men.

Mark Twain said he could have once bought St. Louis for six dollars; now six million wouldn’t be a start.

Next spring the woods will be full of hind-sighted Solomonists, standing around with their hands in their pockets, talking about the opportunities they now possess. Next year is the time to take your chances out of your pockets with your wash in them and make it go as far as you can.

Whether it is just a Little Powder or some more important part of Mildly’s toilet is here at its best and most finished, Our Tinkers, Aids and Preparations are standard in every way. When you pay for THE BEST YOU should receive it. We aim to sell the articles that we know are pure and the finest quality, we can obtain. Yours to serve,

Kier & Cass
