A CARD OF APPRECIATION 1910

Our business for 1909 so far exceeded in volume of business any former year in our history that we cannot but believe that our

"PUTTING OUR CUSTOMERS AHEAD OF OURSELVES POLICY"

has been the means to the end; but even with that square deal policy we have an appreciative host of customers to heartily thank for our great increase in business in 1909.

You will find that a safe policy to trade under whenever you require anything from the Drug Store and only under that policy is your patronage solicited for 1910.

A Sprained Ankle.

As a rule a man will feel well satisfied if he can hobble around on crutches in two or three weeks after spraining his ankle, and it is often two or three months before he is fully recovered. This is an unnecessary loss of time, as by applying Chamberlain's Liniment, as directed, a cure may as a rule be effected in less than one week's time, and in many cases within three days. Sold by all good dealers.
